

SUMMARY

Aspiring Business Analyst with a strong foundation in data analysis, data visualization, and database management. Proficient in Excel, SQL, Python, and Power BI. Passionate about leveraging data-driven insights to solve complex problems and drive business decisions. Eager to apply my analytical skills and enthusiasm for data in a dynamic and growth-oriented organization.

EDUCATION

- **B. Tech in Artificial intelligence & Data Science,** **2021-2024**
Chh. Shahu College Of Engineering Aurangabad
 - **Diploma in Computer Engineering,** **2017- 2021**
MIT Polytechnic Aurangabad
-

SKILLS

- **Programming Languages:** Python, SQL
 - **Data Visualization:** Power BI, Power BI Desktop, Matplotlib, Seaborn, Pivot Table.
 - **Data Manipulation:** Pandas, NumPy
 - **Analytical skills** Data cleaning, Data preprocessing
 - **Database Management:** MySQL
 - **Other Tools:** Excel, Advance Excel, Jupyter Notebook, Google Colab
-

PROJECT

Market Trend Analysis :

- Analyzed market trends using three datasets, performing thorough data cleaning to ensure accuracy.
- Established database connections to import and integrate datasets into Power BI for seamless analysis.
- Designed and developed interactive and visually appealing dashboards to track key metrics, including sales trends, customer segments, and regional performance and so many with the help of graph.
- Provided actionable insights that supported strategic decision-making and drove business growth

Netflix Analysis :

- Cleaned and optimized Netflix datasets by removing duplicates, handling missing data, and standardizing formats to ensure high data quality for analysis.
 - Developed and executed complex SQL queries to analyze trends in popular genres, release years, countries of origin, and top-performing movies and shows.
 - Conducted in-depth trend analysis to identify patterns in content performance based on factors like region, genre, and cast members, providing insights into viewer preferences.
 - Designed and built interactive visual dashboards in to clearly communicate key findings to stakeholders.
 - Delivered actionable insights and recommendations, such as optimizing release schedules and expanding content categories for specific regions, to support data-driven content strategy.
-

CERTIFICATION

- Data Analytics by ICT academy
- Won first prize in college programming hackthon for the topic Obscenity Bloker System 2023.
- 2nd prize for Dancing in rhythm 2023 & 2024
