## Summary

Python Developer and Data Science-certified professional with a strong foundation in backend development, data analysis, and machine learning. Proficient in Python, SQL, and Django, with hands-on experience building scalable web applications and data-driven solutions. Adept at writing clean, maintainable code and integrating robust backend systems with real-world use cases.

## Experience

### Academic ERP System (Frappe-Inspired)

Role: Python Backend Developer | Duration: May 2025 – Present

Tech Stack: Python, Django, REST API, SQLite, VS Code.

- Developed a full-fledged academic ERP backend system to manage student records, payments, exams, and role-based authentication.
- Designed and implemented models for Student, Payment, Exam, and Authentication modules.
- Developed secure RESTful APIs for CRUD operations.
- Implemented auto-email alerts for receipts and payment reminders.
- Used Django’s built-in tools to manage sessions, roles, and dashboards.
- Emphasized scalability and modularity for future integration with frontend systems.

## Project

- **Mobile-Price-Range-Prediction**  
*Developed a price prediction model with 85% accuracy, helping users compare mobile phones based on specifications. Utilized feature selection techniques to enhance model performance*
- **Netflix-movie-and-TV-show-Clustering**  
Analyzed the Netflix dataset to group movies and TV shows using NLP techniques, aiming to improve user recommendations and reduce subscriber churn.
- **Hotel Booking Analysis Project**  
Conducted exploratory data analysis (EDA) on hotel bookings, leading to actionable insights in booking patterns and customer behavior. Built predictive models (Logistic Regression, Decision Trees) to forecast booking trends. Visualized booking trends for resort and city hotels to improve retention strategies.
- **Playstore-Analysis**  
Analyst dataset of 10,000 Android apps to help developers understand market trends and improve app positioning, ensuring continued success in a competitive environment.

## Education

**B.Tech (Mechanical)**  
Dr. Babasaheb Ambedkar Marathwada University,  
Chh. Sambhajinagar (Aurangabad)  
**2024 - CGPA : 7.83**

## Skills

- **✓ Programming:** Python, SQL
- **✓ Frameworks/Tools:** Django, REST API, Git, VS Code
- **✓ Libraries:** Pandas, NumPy, Excel, Matplotlib, Seaborn
- **✓ DataBase:** SQLite
- **✓ Machine Learning:** Regression, Decision Trees, NLP
- **✓ Visualization:** Power BI, Matplotlib, Seaborn

## Certification

- DATA Science Certification Course - ALMABBETER(2024)
- Python Certification Course - Udemy(2022)
- DATA Analysis
