SUMMARY

Analytical and detail-oriented Data Analyst with hands-on experience in SQL, Power BI, and Python. Skilled in transforming complex data into actionable insights through automation, dashboard development, and performance reporting. Demonstrated success in delivering results via academic projects and internships, with a strong focus on business impact and visualization

EDUCATION

Netaji Subhas Institute Of Technology Bachelor of Technology (Electronics and Communication)	6.5 GPA (2021 - 2025)
Modern International School CBSE (Class XII)	66.6 % 2020
The Air Force School CBSE (Class X)	65.6 % 2018

EXPERIENCE

Human Resource Intern Pehchaan the street school (NGO) • Drafted and published job postings on various job portals to attract suitable candidates. • Screened resumes and shortlisted applicants based on role requirements and coordinated interviews. • Managed onboarding process and updated internal databases regularly	(JUN'25 - present)
Data Analytics Intern Tamizan Skills Remote • Leveraged Python, Excel, and Power BI to analyze complex datasets across health, education, and media domains, delivering actionable insights through visual dashboards. • Built interactive Power BI dashboards to identify COVID-19 trends, student risk factors, and Netflix user preferences, supporting real-time decision-making. • Cleaned and transformed large datasets using Pandas, automated KPI calculations, and visualized key metrics using matplotlib, seaborn, and Excel charts.	(JUN'25 - JUL'25)
Research Intern Skill India PMKVY Delhi • Conducted in-depth research on localized antenna manufacturing under the "Make in India" initiative. • Designed and simulated cost-efficient antenna models using CST and ADS, reducing dependency on imported components. • Built physical prototypes and validated performance using RF test frameworks.	(JUN'24 - AUG'24)

PROJECTS

Banking Analytics Dashboard Python, MySQL, Power BI • Built relational database schema and optimized SQL queries for high-volume financial data. • Developed dynamic dashboards in Power BI using DAX to track KPIs like customer churn and revenue trends. • Automated pipeline integration between MySQL and Power BI, reducing manual reporting time by 40%.
HR Analytics Dashboard Power BI, Excel • Cleaned and transformed HR datasets using Power Query and Excel formulas. • Built interactive dashboards featuring KPIs such as attrition rate, average age, and headcount. • Enabled real-time filtering, slicing, and drill-down capabilities for executive reporting.
Interactive Excel Dashboard Excel (Power Query, Pivot Tables) • Designed an end-to-end Excel dashboard with dynamic visuals, slicers, and conditional formatting. • Automated data cleansing and transformation to streamline analysis. • Ensured accuracy through structured testing and validation protocols.

CERTIFICATES

- Tata Data Visualisation: Empowering Business with Effective Insights | Forage
- Career Essential in Data Analysis | Microsoft and LinkedIn

SKILLS

- Programming Languages:** DSA, C++, SQL, Python
- Tools:** MySQL, Power BI, MS Excel, Google Analytics, Tableau, CRM, Canva, Adobe Photoshop, VN
- Soft Skills:** Communication Skills, Research, Time Management, Analytical Skills, Teamwork, Adaptability
