Summary

Data Scientist skilled in **predictive modeling**, **data storytelling**, and delivering **strategic insights**. Completed **6+ end-to-end projects** using **Python**, **SQL**, and **machine learning**, contributing to a **20% improvement** in decision-making accuracy. Proficient in detecting **business patterns**, optimizing **data pipelines**, and implementing **scalable analytical solutions**.

Education

Woolf University | Master's in Data Science & Artificial Intelligence
Machine Learning, Deep Learning, Analytics

Jan 2024 - Present

Purbanchal University | Bachelor of Business Administration (BBA)
Business Analytics, Finance, Marketing, DBMS, E-Commerce
3.4/4

Jun 2018 - Aug 2021

[🔗 Degree](#)

Experience

AlmaBetter | Data Science Trainee
[🔗 Letter](#)

Jan 2024 - Present

- Built **5+ automated business dashboards** using **Power BI** and **SQL**, cutting reporting delays by 30%.
- Led **50+ peer training sessions**, improving training participation by 40%.
- Executed **ML-based analysis** to track **customer behavior**, improving customer engagement by 12%.

Edureka | Data Science & ML Intern
[🔗 Certificate](#)

Sep 2023 - Feb 2024

- Defined **predictive models with 91% accuracy** for **3 business scenarios**, demonstrating statistical modeling expertise and trend discovery.
- Created **4 Tableau dashboards**, enhancing data-driven visibility.
- Refined **10+ ETL workflows**, improving data pipeline efficiency by 25%.

Laxmi Sunrise Bank | Cashier
[🔗 Letter](#)

Nov 2021 - Oct 2022

- Handled **100+ daily transactions** with **99.9% accuracy**.
- Streamlined **financial reconciliation** in **Excel**, cutting manual overhead by 30%.

Bank of Kathmandu | Intern
[🔗 Letter](#)

Aug 2021 – Nov 2021

- Reviewed **500+ service records** and introduced process updates that cut wait times by 20%.

Projects

Telco Customer Churn Prediction (Python, Scikit-learn, Statistics)
[🔗 Link](#)

- Designed **classification models** evaluated using **F1-score of 0.66** and **ROC-AUC of 0.85** through **feature engineering** and **hyperparameter tuning**.
- Applied **VIF checks**, **Chi-Square test**, and **t-test** during **EDA** to validate feature relevance and identify statistically significant patterns.
- Generated **strategic data insights** enhancing user retention by targeting vulnerable customer segments.

Logistic Regression, Decision Tree, Random Forest, KNN, SVM, Model Evaluation, ROC-AUC, F1-Score, Hyperparameter Tuning, Cross-Validation, Confusion Matrix, Feature Engineering, Chi-Square Test, T-Test, VIF, EDA, Stratified Sampling, Classification Models, Predictive Modeling, hypothesis testing

E-commerce Dashboard (Power BI + Figma)
[🔗 link](#)

- Created a **custom Power BI solution** for **2 business datasets** exceeding **10K records**, supporting executive decision-making.
- Developed **DAX formulas** for metrics like **AOV**, **Customer Segments**, and **Sales KPIs**.
- Enhanced **dashboard clarity** and boosted **stakeholder engagement** by 40%.

Power BI, DAX, Power Query, Data Modeling, Interactive Dashboards, Data Cleaning, ETL, KPI Dashboards, Report Automation, Drillthrough Reports, Relationships in Power BI, Power BI Service, Power BI Desktop, Data Transformation, Row-Level Security, Custom Visuals, Bookmark Navigation, Data Refresh, Excel Integration

End-to-End Ecommerce Sales Analysis Using SQL
[🔗 link](#)

- Prepared and executed an **end-to-end Ecommerce Sales Analysis project** using **pure SQL**, creating a **normalized relational database** and **ER diagram** from raw **CSV files**.
- Uncovered key business insights such as **total revenue**, **top-selling products**, **peak order times**, and **customer behavior** using advanced **SQL techniques** (CTEs, **Window Functions**, **Joins**, **Aggregates**).
- Analyzed **growth patterns** and optimized **campaign timing strategies** through **cumulative revenue analysis**.
- Generated **strategic recommendations** to enhance revenue growth, customer engagement, and campaign effectiveness based on **SQL-driven insights**.

SQL, CTEs, Joins, Window Functions, Aggregations, ER Diagram, Normalization, Relational Database Design, CSV to SQL Pipeline, Data Cleaning, Group By, Subqueries, Case Statements, Order By, Campaign Analysis, Revenue Insights, Customer Segmentation, SQL Optimization, Business Intelligence, Analytical SQL

Awards
Gold Badge in Python and SQL
Hackerrank
[🔗 view](#)

- Acquired 1437 Hackos with Golden Badge**

SQL 50 Badge
Leetcode
[🔗 link](#)

- Acquired SQL 50 Badge in Leetcode**

Best Intern Award – Data Science & ML, Edureka
[🔗 Certificate](#)

- Recognized among the top-performing interns in the Data Science and Machine Learning Internship Program for exceptional contributions and project excellence. Achieved by only a select percentage of participants.

Full Stack Data Science & AI Certification – IIT Guwahati (AlmaBetter)
[🔗 certificate](#)

Data Science & ML Internship: Edureka (2023-2024): Completed full 4-module program with capstone project
[🔗 Certificates](#)

Skills
Programming
●●●●□
Python, SQL

Libraries
●●●●□
Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Visualization
●●●●□
Power BI, Tableau, Excel

Databases
●●●●□
MySQL Workbench, MySQL, PGAdmin4

Tools
●●●●●
Jupyter Notebook, Google Colab
