EDUCATION

Symbiosis Skills and Professional University, India

Master of Science in Data Science

Aug 2022 - Sep 2024

CGPA: 7.6/10.0

Dr. DY Patil College, India

Bachelor of Computer Science

Jul 2019 - May 2022

CGPA: 8.6/10.0

EXPERIENCE

CreTech

Jan 2025 - Apr 2025

Machine Learning, Intern

Remote, India

- Gained hands-on experience in machine learning concepts and practical model implementation.
- Worked on supervised learning projects, model evaluation, and optimization techniques.
- Participated in virtual collaborative sessions to enhance ML problem-solving skills.
- Completed tasks involving data preprocessing, exploratory data analysis, and model deployment.

Enerdatics

Jan 2024 - Dec 2024

Business Analyst, Intern

Pune, India

- Conducted in-depth research to identify global solar, wind, and CCUS projects.
- Analyzed historical data to forecast timelines and investment estimates using various project metrics.
- Conducted in-depth market research, identifying trends and growth opportunities to enhance the study abroad platform.

Bharat Groww

Jun 2023 - Aug 2023

Data Analyst, Intern

Pune, India

- Analyzed large datasets using Excel to uncover market trends and customer behavior.
- Identified new business opportunities through data segmentation and visualization.
- Developed visualizations in Power BI and Excel to present insights, enabling stakeholders to make data-driven decisions quickly.
- Automated reporting processes in Excel, reducing manual report generation time by 30% and improving operational efficiency.
- Collaborated with cross-functional teams to identify process gaps and implement data-driven solutions, streamlining reporting and decision-making workflows.

KEY SKILLS & TOOLS

Data Science & Analytics: Python, SQL, Microsoft Azure, Power BI, Tableau, ETL, AI/ML (Pandas, Numpy, PyTorch, LangChain)

Currently Learning: SAS (SQL Optimization, Statistical Modeling)

Automation & Workflow: Power Automate, Power Apps, Excel

RELEVANT COURSEWORK

Computer Science: Machine Learning, Deep Learning, Artificial Intelligence, AWS, Database Management System, Data Engineering, Data Visualisation, Cloud Computing, Data Analysis Libraries

Mathematics: Probability and Random Processes, Linear Algebra, Optimization, Discrete Maths, Number Theory

PROJECTS

RetailQueryGPT: Intelligent Inventory Management System

- Optimizes retail inventory management by allowing staff to interact with databases using natural language, improving efficiency in querying stock and sales data without requiring SQL knowledge.
- Developed a natural language SQL query solution using Langchain and Google PaLM, with few-shot learning via Chroma-DB. Deployed on Streamlit and Google Colab.

Heart Disease Detection Using Machine Learning

- Built a model to predict heart disease using patient health metrics.
- Utilized Logistic Regression, Decision Tree, and Random Forest algorithms.
- Evaluated with Accuracy, Precision, Recall, and F1 Score.

T20 World Cup Analysis

- Created a Power BI report to identify top 11 players for a T20 cricket team by scraping data from espncricinfo and Kaggle, cleaning and transforming the data with pandas, and evaluating various player performance metrics.
- Used the Power BI dashboard to select top 11 players across roles (openers, middle order, finishers, all-rounders, fastbowlers), resulting in a team with a **90%** winning probability.

Meal Demand Forecasting

- Supports food service companies in forecasting meal demand, optimizing inventory, and reducing food waste.
- Developed a PowerBI dashboard using trend forecasting to predict weekly sales for the next 5 weeks.

CERTIFICATIONS

Certified C & C++ Language, Itech education

Certified Python Language, Itech education

ChatGPT for Data Analytics, Luke Barousse

Certified Advance Microsoft Excel for Data Analysis, Analytics Vidya

Certified Basics Microsoft Power Bi, SSPU

ChatGPT Prompt Engineering for Developers, DeepLearning.AI

POSITIONS OF RESPONSIBILITY & RELEVANT COURSEWORK

General Secretary, Symbiosis University:

2022 - 2023

Coordinated an inter-college cricket tournament and organized various cultural events for the college.

Sports, District Level:

2018 - 2019

Represented the school district in football, demonstrating proficient skills in the sport.
