PROFILE

Detail-oriented and analytical Business Analyst and Data Analyst with hands-on experience in data visualization, reporting, and project coordination. Skilled in tools such as Power BI, SQL, Excel, and Python, with a solid foundation in business process optimization and stakeholder collaboration. Adept at transforming complex data into actionable insights to drive strategic decisions.

PROFESSIONAL EXPERIENCE

Business Analyst at SNVA Ventures (Internship)
Product Analysis & Process Improvement

- Designed and deployed an interactive Power BI dashboard, enabling real-time data analytics and improving decision-making efficiency by 30%.
- Authored a detailed Jira User Manual, streamlining project tracking and enhancing team productivity.
- Performed comparative analysis of web analytics tools, resulting in the adoption of Hotjar to monitor user behavior and boost engagement metrics.
