PROFILE

Computer Engineer with strong skills in Software Development, Machine Learning, AI, and Web Technologies, backed by hands-on experience in real-world projects.

SKILLS

Languages: Python, SQL, Java, C/C++, HTML, CSS, JavaScript

Technologies & Tools: Object Oriented Programming, Flask, Power BI, Microsoft Excel

EDUCATION

Modern Education Society's Wadia College of Engineering, Pune B.E. in Computer Engineering Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Computer Networks, Machine Learning, Information Retrieval, Cyber Security and Digital Forensics, Natural Language Processing	June 2021 - June 2025 CGPA: 8.8/10
D.P.Bhosale College, Koregaon, Satara XII (HSC)	June 2020 - June 2021 Percentage: 90.67
Challenge Academy, Koregaon, Satara X (SSC)	June 2018 - June 2019 Percentage: 90.40

PROJECTS

Exam Proctoring System Tools and Technologies : Flask, OpenCV, Dlib, FaceNet - Developed an intelligent proctoring system that uses AI algorithms to monitor online examinations. - AI-powered system using face detection, recognition, head pose estimation, sound and object detection for secure online exams with real-time alerts and post-exam reports.	(2025)
Bank Management System Tools and Technologies: Java, JDBC, MySQL, OOP Concepts. - Secure desktop app for managing accounts, transactions, and balances. Used Java Swing for UI and MySQL for persistent storage with authentication and validation	(2024)
Sorting Visualizer Tools and Technologies: HTML, CSS, JavaScript. - Built an interactive web-based Sorting Visualizer to demonstrate the working of various sorting algorithms including Bubble Sort, Selection Sort, Insertion Sort. - Web app to visualize sorting algorithms with real-time animations, array size/speed controls, and responsive UI. Demonstrates DOM manipulation and frontend skills..	(2023)
Image Editing Website Tools and Technologies: Flask, Python, HTML, CSS, JavaScript, OpenCV. - Developed a dynamic web application using Flask that allows users to upload and edit images through a browser interface. - Web-based image editor with features like cropping, rotating, filtering, grayscale, brightness/contrast control. Includes secure file handling and session management.	(2023)

AWARDS

- Winner in District Level Debate Competition** The Debate Competition on the Technology was held at district level where 300 Students attended the competition.
- Runner Up in Quiz Competition
- Best Research Paper Presentation Award (Inter-University Competition)
