EDUCATION

Indian Institute of Information Technology Kottayam

2021 – 2025

B.Tech Computer Science Engineering

CGPA: 7.67/10

FIITJEE Junior College

2019 – 2021

Board of Intermediate Education

Percentage: 96.2

SKILLS

Languages & Frameworks: C++, SQL, Python, HTML/CSS, FastAPI

Libraries: Pandas, NumPy, Seaborn, Matplotlib, Scikit-learn, TensorFlow, NLTK, XAI

Databases & Cloud: MySQL, PostgreSQL, MongoDB, AWS

Tools: GitHub, Docker, Power BI, Looker Studio, Excel

PROFESSIONAL EXPERIENCE

LatentForce.AI

June 2025 – Present

ML Engineering Intern

- Contributing to Vision_Max, a VLM project aimed at document image analysis, by developing UI components for image manipulation and text manipulation.
- Developed and configured AWS EC2 instances to run image processing scripts for extracting bounding boxes.

RESEARCH EXPERIENCE

Detecting AI-generated product reviews in Dravidian languages

Research Assistant under Dr. Balasubramanian

- Fine-tuned transformer-based models to detect AI-generated text in Dravidian languages, addressing challenges with language-specific BERT variants.
- Achieved 90% accuracy on benchmark datasets for text classification using pre-trained Hugging Face models.

PROJECTS

Federated Learning for Precision Agriculture Management | *Flower, ANN, XAI*

- Developed a federated learning system to enhance crop yield prediction of 86% accuracy across multiple clients.
- Performed EDA on 100K+ structured records to evaluate data quality and uncover growth patterns.
- Integrated SHAP-based explainability to improve model transparency and feature interpretability.

Customer Behavior and Lifecycle Analysis in EV Leasing | *SQL, Excel, Python*

- 20,000+ electric vehicle lease transactions were analyzed to identify sales trends, customer behavior patterns, and order fulfillment bottlenecks.
- Customer segmentation indicated a repeat purchase rate over 40% and a payment failure rate of 7.3% due to unfulfilled orders.
- A retention cohort heatmap displayed a sharp decline in customer retention after the second month.

Supply Chain Analysis | *Power BI, Excel*

- An interactive dashboard was designed to track supply chain KPIs for an FMCG manufacturer.
- Business KPIs were analyzed using data from over 80K+ orders across multiple warehouses.
- Designed 12+ visuals and implemented 15+ DAX measures to monitor inventory flow and order accuracy.

PUBLICATIONS

Sai Sathvik, et al. "AI-Generated Product Review Detection in Dravidian Languages Using Transformer-Based Embeddings." -ACL DravidianLangTech Workshop, 2025. [Paper]

ACHIEVEMENTS

- Secured 9th place (Tamil) and 21st place (Malayalam) at the DravidianLangTech @NAACL 2025
- Awarded 3rd place in Volleyball during the Pradhava Sports Meet 2024.
