PROFILE

Results-driven MCA student with hands-on experience in Python, SQL, web development, and data analytics. I wish to pursue a challenging job opportunity in a firm that can accommodate my competence, experiences, and goals. As a quick learner, I am eager to adapt to new challenges and contribute effectively to the team.

PROJECTS

- Project Title: **Happy Tails**

Tech Stack: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

Description:

- Developed a scalable web application for managing pet adoptions with **role-based authentication**, dynamic **admin dashboard**, and integrated **eCommerce functionality**.
- Built with a focus on modularity, **MongoDB CRUD** operations, and clean UI/UX.

Tasks:

- Designed RESTful APIs for users, pets, products, and adoption requests using Express.js.
- Implemented **secure login** with role-based access control (user/admin).
- Created interactive dashboards for managing inventory, requests, and status updates.
- Enabled **real-time request tracking**, grooming services, and shopping cart functionality.
- Followed **Agile development methodology** using GitHub and Jira.

- Project Title: **Spotify Recommendation System**

Tech Stack: Python, Flask, Streamlit, Pandas, Scikit-learn, Spotify API

Description:

- Built a personalized music recommendation system that uses **TF-IDF vectorization** and **cosine similarity** for user-based filtering.
- Integrated real-time song data via the **Spotify API**, and presented insights using an interactive Streamlit interface.

Tasks:

- Developed a complete **data pipeline** from data preprocessing to recommendation output.
- Applied **exploratory data analysis (EDA)** to identify trends in music listening behavior.
- Created user-facing web app using Streamlit for live song suggestions.
- Integrated Spotify API to enhance recommendation quality with real-world data.
- Utilized **user-based filtering** and **machine learning techniques** to personalize results.

EDUCATION

2023-2025

INSTITUTE OF MANAGEMENT
AND CAREER COURSES

- Masters in Computer Application (First Class)

2020-2023

MMCC, PUNE

- BSc - Computer Science (First Class With Distinction)

CERTIFICATIONS & COURSES

- Data Analysis - Udemy
- Oracle Cloud Infrastructure - Oracle
- Project Management Fundamentals - IBM Skills
- Salesforce Basics - Excelr
- Analytics using Tableau - Infosys Springboard
- Scaled Agile Framework - Udemy

TECHNICAL SKILLS

- **Programming Languages** : Python, Java
- **Web Technologies** : HTML, CSS, JavaScript, Bootstrap
- **Backend Technologies** : Flask, JSP, Servlet, Nodejs, Express.js
- **Databases** : MySQL, MongoDB
- **Data Analytics & ML** : Pandas, NumPy, Scikit-learn, Matplotlib, Tableau, MS Excel, Power BI
- **Statistical Knowledge** : Regression, Hypothesis Testing, Descriptive & Inferential Stats
- **Tools** : MS Word, PowerPoint, Jira, Draw.io
- **Version Control** : Git, GitHub
- **Data Operations** : Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, ETL Basics, Data Reporting, Dashboarding
- **Business Skills** : Business Analysis, KPI Dashboards, Requirement Gathering, Problem Solving.

EXTRA-CURRICULAR & LEADERSHIP

- **Organized and managed Jigyasa Inter-College Events at MES IMCC**, coordinating event logistics, handling on-site operations, and collaborating with faculty and students to ensure smooth execution across multiple technical and cultural activities.
- **Volunteered at Oracle AIOUG Yatra 2024**, supporting large-scale event coordination, speaker assistance, and session management while gaining hands-on exposure to Oracle Cloud, Data Analytics, and AI technologies through direct industry interaction.
