Data Scientist /Analyst with hands-on experience in Python, SQL, and machine learning, specializing in data analysis, visualization, and predictive modeling. Skilled at analyzing complex datasets, and delivering clear, data-driven solutions through visualization and predictive modeling.

EXPERIENCE

Zoho Corporation Pvt. Ltd. – Summer Intern
Tenkasi, Tamil Nadu

June 2024–July 2024

- Conducted in-depth data analysis to identify the need for a Zoom extension, then designed and implemented an automated meeting scheduling solution using APIs and Deluge scripting, enhancing workflow efficiency and streamlining calendar management.

PROJECTS

Spotify Trends: Analyzing Spotify's Top Songs using Pandas

- Analyzed 10,000+ top tracks and created interactive visualizations revealing that songs featured in 50+ playlists saw 3x higher streams, with ideal tempos between 120-140 BPM driving engagement and 80% of chart-toppers post-2010 had balanced emotional appeal, proving that acoustic and valence levels boost listener connection.

OTT Comparison Dashboard: Comparing OTT platforms (Netflix, Amazon Prime, Disney+)

- Developed an interactive Power BI dashboard to analyze streaming trends across major OTT platforms, providing data-driven insights into content growth, genre diversity, global distribution, and regional viewing behaviors.

CNN Based Indian Medicinal Plant Identification:

- Developed a CNN-based model for plant species classification, integrating a user-friendly website for seamless interaction. Collected Dataset across 20+ species, Designed a robust deep learning architecture for optimized performance. After extensive testing and fine-tuning, the model reached 86% accuracy, proving its reliability in identifying plant species.

EDUCATION

Dr. M.G.R. Educational and Research Institute

Bachelor of Technology in Computer Science (Specialization in Artificial Intelligence and Data Science) with CGPA of 8.45/10.0

Chennai, Tamil Nadu | *Graduation: 2025*

SKILLS & CERTIFICATIONS

Programming language: Python (NumPy, Pandas, Scikit-learn)

Frameworks: TensorFlow, Keras, PySpark

Databases: MySQL, PostgreSQL

Data Analytics & Visualization: Power BI, Tableau, Excel

Cloud Platforms: IBM Cloud, AWS

Other Skills: Git, Linux

Certifications: Data analysis with Pandas and Python (Udemy), Statistics for Data Analysis (Udemy), Cloud Application Developer (IBM), AI Analyst (IBM), Business Intelligence (IBM)
