SUMMARY

Curious mind with a passion for turning ideas into action. As an MBA student specializing in Business Analytics, I've coordinated projects, decoded data stories, and worked closely with teams to make things happen. From analyzing trends during my Data Analyst internship to managing deadlines as a Project Coordinator, I thrive on solving problems, staying organized, and learning fast. Eager to bring a mix of strategic thinking and hands-on hustle to a team that values fresh ideas and real results.

PROFESSIONAL EXPERIENCE

NCircle Tech, Pune, Maharashtra

Jan 2025 – July 2025

Project Coordinator Intern

- Worked with clients like Autodesk, Nanawall, FaciliCAD, HighQA.
- Maintained project documentation and monitored task completion via Click-Up and Excel trackers
- Shared structured meeting agendas with clients ahead of time, promoting clear communication and cutting down meeting time approximately 25-30% by minimizing back-and-forth and ensuring aligned preparation.
- Proposed and implemented a resource optimization plan by onboarding an intern as a shadow developer on a low-complexity project, reducing senior developer effort by 40% and improving gross margin by lowering billable hours.
- Prepared weekly progress reports and shared updates with both internal teams and external stakeholders.
- Coordinated project status meetings, tracked action items, and followed up with teams to ensure timely task completion.
- Maintained consistent client communication through emails and calls, addressing queries and aligning deliverables with expectations.
