Summary:

- An aspiring Software Engineer with knowledge in software engineering practices such as **coding, Design, SDLC, Programming Standard, Troubleshooting, Monitoring, OOPS and Data Structure and Algorithm etc.**
- **Proficient in Java Programming, Web Development & Backend Practices, Database and Network Technology.**

Skills:

- **Technologies:**
 - **Front-End:** HTML 5, CSS 3, JavaScript, Bootstrap 4, JSON, ReactJS, AJAX, ES6
 - **Back-End:** Java, NodeJS, SQL/MySQL, MongoDB, Python, C++, Hibernate, JPA
 - **Other:** Git & GitHub, MS-Suite (Excel, Word, PPT), Linux, Brackets, IDE, Postman,
- **Networking:** OSI, TCP/IP, Routing Protocols, Switching Protocols, DHCP, DNS, VLANs, LAN, WAN, Packet Tracer
- **Java Masterclass (Certification):** JDK, Object- Oriented Programming (OOPS), Abstract Class, Multithreading, Collection Framework, RESTful API, JDBC.

Professional Experience:

Company - LearnYard Technologies FZ-LLC

Jan 2024 - Present

Role: Software Engineer Trainee

- Developed and debugged applications using Core Java, OOPS principles, Spring frameworks, RESTful API integration, and cloud technologies to **build scalable solutions**.
- Conducted **development testing, identified bugs**, and implemented fixes to ensure seamless application performance.
- Improved **codebase quality** by actively contributing efficient and optimized code.
- Participated in **product discussions** to assist with task estimation, sprint planning, and prioritization.
- Awarded **Certificate of Completion** for outstanding project delivery.
- Won **3 technical quizzes** showcasing strong programming and problem-solving abilities

Company - The Entrepreneurship Network

Nov 2021 - Feb 2022

Role: Analyst Intern

- Built **dashboards and reports** using **MS Excel, PowerPoint, SQL and DBA** for real-time insights.
- Collaborated with senior consultants on **project planning, tracking, and documentation**.
- Designed and implemented **reporting infrastructure** to monitor product and marketing funnels.
- Contributed to **process improvements** and ensured **accuracy** in all deliverables.
- Conducted **market research, data analysis, and data preprocessing** to support business solutions.

Key Achievements:

- Received **Top Performer Certificate** thrice for outstanding project performance.
- Consistently delivered tasks with **precision**, meeting all project deadlines.

Skills: Market Research, Data Analysis, MS Excel, PowerPoint, SQL, Database Handling, Python.

Projects:

Skate Hub: Your Skateboarding Destination

Led the creation of a **dynamic skateboarding website**, featuring trendy gear purchases and comprehensive tutorials. Integrated key elements for enhanced UX/UI, ensuring a **95%** accuracy rate. Implemented essential features like login, logout, signup, and user authentication, achieving an **80%** reliability rate.

The development utilized HTML, CSS, JavaScript, Bootstrap, JSON, API Integration, Postman and the responsive Bootstrap grid system.

Music Player by detecting Facial Expression

I spearheaded the **development of an Application** utilizing Facial Expression Recognition to music playlists according to users' moods, achieving an impressive accuracy rate of **80%**. The process involves capturing facial features as input and conducting AI analysis to accurately discern emotional states.

Leveraging a robust tech stack including HTML, CSS, JavaScript, Bootstrap, Apache Tomcat, Java, and SQLite, the system ensures seamless integration for an enriched user experience.

Stone Paper Scissor Game:

Created an engaging Rock, Paper, Scissors game using HTML, CSS, and JavaScript, demonstrating robust front-end development skills with user interface design and responsive layout. Implemented game logic and user interactions for an immersive experience, utilizing modern JavaScript (ES6) for efficient code. Achieved a remarkable accuracy rate of **97%**.

Educational Qualification:

- **Bachelor of Engineering (B.E) – Computer Science and Engineering** (July 2018 – August 2022)
University of Pune
CGPA – 7.84 / 10
Coursework: AI, ML, Networking, OOP, Software testing, AWS
- **XII (Higher Secondary Education) Science** (June 2017 – June 2018)
Higher Secondary Certificate
Coursework: Fundamentals of Computer Science, C++
- **X (Secondary Education)** (June 2015 - June 2016)
Secondary School Certificate
Coursework: Electrical, Electronics, IOT, IT

Certification:

- Full Stack Web Development
- Java Programming Masterclass
- Deloitte Technology Virtual Experience
- Cognizant Agile Methodologies Virtual Experience
- CCNA 200-301 Training & Certification

Extra-Curricular Activities:

- Earned the first prize and a gold medal for my participation in the Science Olympiad Foundation IT Assessment at the zonal level.
- I participated in Computer Engineering Student Association at Dhole Patil College of Engineering for planning, executing and reviewing the events organized by the college.
- Received a certificate for actively participating and organizing the solar assembly program.

Interpersonal Skills:

- Flexibility and adaptable to new work environments
- Collaborative, organizational and Problem solving skills
- Ability to quickly learn new tools and technologies
- Innovative, Growth oriented and Analytical skills
- Committed and Communication skills
