 - **Documentation Tools:** MS Word, MS PowerPoint, MS Excel
 - **Additional:** Problem-Solving, Agile Methodologies, Time management, Scrum and Kanban Methodology, Data Modelling, Google Analytics
-

Work Experience

Business Analyst Intern

COEPD | Jul 2023 – Feb 2024

- Gathered and documented business requirements through stakeholder interviews and workshops.
 - Developed and maintained **BRDs and FRDs**, ensuring alignment with functional and technical specifications.
 - Conducted **stakeholder analysis**, including **RACI matrix** development, to define roles and responsibilities.
 - Participated **Agile sprints** facilitating daily stand-ups, sprint planning, and retrospectives, while tracking progress and **refining backlogs in JIRA**.
 - Prioritized and optimized the **project backlog, creating user stories**, aligning deliverables with business objectives to maximize value.
 - Led testing efforts including sanity, regression, and functional testing, ensuring quality across the **SDLC**.
 - Used **SQL** for data validation and analysis, supporting decision-making processes.
 - Updated dashboards to track testing status and participated in client and development team meetings.
 - **User Acceptance Testing (UAT)** efforts ensuring that solutions met business requirements and were aligned with user expectations
-

Key Projects

Project: Wealth Wise

- **Approach:** Agile Model
- Engaged with **clients and stakeholders** to gather requirements, translate business needs into analytical solutions, and deliver presentations with key insights on workforce optimization, and **market trends**.
- Designed end-to-end solutions to improve client wealth management systems.
- Collaborated with **cross-functional** teams to implement system changes, reducing process inefficiencies by 20%.
- Conducted **risk analysis** and developed mitigation strategies to ensure project success.

Project: Pay Settle

- **Approach:** Waterfall Model
 - Managed project requirements for payment reconciliation processes, enhancing accuracy by 15%.
 - Applied strong **storytelling skills** to translate complex data into clear, compelling narratives, enabling stakeholders to make informed decisions.
 - Data modelling to perform in-depth analysis, creating **Power BI** visualizations to support data-driven decision-making.
 - Developed **test scenarios**, executed **test cases**, and updated traceability matrices to ensure requirement alignment.
-

Education & Certifications

- **Master of Business Administration (Finance)**
D.Y. Patil Institute of Management Studies, Pune
 - **Certifications:**
 - Certified Business Analyst Professional (**IIBA-CBAP**)
 - Professional Diploma in **Agile and Project Management**
 - **Scrum Master** Certification
 - Microsoft **Power BI** Desktop: Advanced DAX for Data Analysis
 - Artificial Intelligence
 - Business Insights Through Data
 - **Advanced MS-Excel** Certification
-

Achievements

- Improved project documentation clarity, leading to a 25% reduction in requirement misunderstandings.
- Led defect management processes, reducing resolution times by 30%.
- Delivered actionable insights that enhanced decision-making, improving process efficiency by 20%.
