OBJECTIVE

An enthusiastic computer science fresher seeking challenging position in an IT related company where I may be able to employ my skills in developing **application logic, coding and user interfaces** in order to provide the company's clients with efficient software solutions.

Technical Skills

Programming Languages	Java, Python
Frontend Technologies	HTML5, CSS3, Java Script, ReactJS, Bootstrap
Concepts	OOP's, Data Structures, DBMS,
AI/ML	Prompt Engineering, ML Operation Using Azure Databricks And Machine Learning Studio
Database	MySQL
Version Control System	Git, GitHub
Cloud Service	Google Firebase
Soft Skills	Critical thinking, Problem Solving, Team Work, Leadership

EDUCATION

P. R. Pote Patil College of Engineer and Management Amravati Bachelor's of Computer Science Engineering	8.42/10.0 CGPA Dec 2021 - Apr 2025
G. R. Kabra Junior Science College Chandur Bazar Higher Secondary Certificate	89 % June 2020 - Feb 2021
Nagar Parishad Vidyalaya Chandur Bazar Secondary School Certificate	87.20 % June 2018 - Mar 2019

EXPERIENCE

Java developer intern TechnoHacks EduTech	Sep 2023 - Nov2023
• Designed and implemented Java-based applications, utilizing core concepts like object-oriented programming (OOP), multithreading, and exception handling to meet project requirements. • Completed task-based assignments within strict deadlines, applying Agile methodologies and demonstrating strong analytical and problem-solving abilities. • Collaborated remotely using tools like Git, ensuring seamless coordination and delivery during the 3-month virtual internship program.	

CERTIFICATIONS

- **Great Learning Certification** (Java Course Completion Certificate)

PROJECTS

VRP Associates Law firm (HTML, CSS, JS, Firebase, Python, OCR Scanning, Law Bot)
• Designed a system to streamline operations and improve document handling efficiency, reducing case preparation time. Led the project, structured a database for secure data management, and integrated features like OCR scanning and lawbot automation.
Ecommerce Website (HTML, CSS, JS, MySql and Java)
• Developed a dynamic e-commerce platform with features like product browsing, user authentication, and secure transactions. Designed and managed the database, integrated Java for backend services, and ensured seamless frontend-backend communication.

POSITIONS OF RESPONSIBILITY

- Represented State and University-level Volleyball teams and Techelon's 2023 and 2024 as a Lead of the departmental team.
- Served as a member of the Coordination Committee for SIH 2023, a National-level event held at my college, demonstrating strong organizational and teamwork skills.
