Delhi & Gurgaon

**Looking for an Opportunity in Data Analysis or Business
Analysis with skills like SQL, Excel, Tableau, Power BI
and Python.**

SKILLS

- SQL
- Power BI
- Tableau
- Advance Excel (1 Years' experience)
- MIS reporting (1 Years' experience)
- Data Visualization
- Tensorflow
- Google Sheets
- MS Office & PowerPoint(2 3 Years' experience)
- Machin Learning
- JavaScript
- Problem Solving
- Python
- Data modeling
-

CERTIFICATES

- ❖ Advance Excel
- ❖ SQL and Relational Databases
- ❖ Tableau
- ❖ Power BI
- ❖ Machin Learning
- ❖ Deep Learning
- ❖ Tensorflow

EDUCATION

MCA (AKTU) – 70.30%	2016 – 2019
BCA (CSJMU) – 66.11%	2013 – 2016
12 th (UP Board) – 77%	2011 – 2012
10 th (UP Board) – 64.6%	2009 – 2010

English, Hindi

predictive analytics on Excel

Analyzed Restaurant Tip Dataset using Advance Excel
we did data cleaning & Identifying which predictive
problem is needed Encode the categorical variables to
numeric value,

Used appropriate model with the dataset,

Calculate the predicted and actual tips values,

Calculate the RMSE (Root Mean Square Error) of the
model and mathematical equation for predicting the
tips value

Tools used: Microsoft Excel, Data Analysis Add-in

Comparison of Region Based Sales

Compare and prepared a dashboard to visualize the
sales between two regions to check the performance
between them and suggest the necessary
improvements,

Analyzed and prepared dashboard Sample Superstore
Dataset with the help of Tableau,

Created hierarchy for Location, Parameters,

Calculated Field for Primary Region and Secondary
Region,

Alignment of all sheets in the dashboard for parallel
comparison.

Air Cargo Analysis using SQL queries

For company we analyzed and prepared reports on
regular passengers, busiest routes, ticket sales details,
and other scenarios to improve the ease of travel and
booking for customers

Identifying the regular customers to provide offers,
analyze the busiest route which helps to increase the
number of aircraft required and prepare an analysis to
determine the ticket sales details

Finding out the details of Customer, travel details, ticket

Projects Completed:

Predicting restaurant tips using
