## SUMMARY

I am a Data Science enthusiast with strong skills in Python and Machine Learning algorithms. I have hands-on experience in deploying models using Streamlit, and i am proficient in SQL and Power BI for data management and visualization. My internship has provided me with valuable practical experience, and i am eager to apply my AI and Machine Learning expertise to contribute effectively to your team.

## SKILLS

- Python
- AI/ML
- SQL - MySQL, RDBMS
- Data Pre-processing & Analysis
- ML Algorithms - Linear Regression, Decision Tree, Random Forest, SVM, Logistic Regression, XG-Boost, CatBoost
- NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, TensorFlow
- Deployment Model - Streamlit
- Data Visualization- PowerBI

## PROFESSIONAL EXPERIENCE

**AI/ML Developer Intern | Farmoid Robotech Pvt. Ltd.**

**May 2024 - Oct 2024**

Company Focused on Agricultural technology solutions

- Developed and optimized machine learning models to predict crop yields using historical weather data, soil conditions, and crop management practices.
- Implemented various algorithms, including Random Forest, Gradient Boosting, CatBoost, and Decision Trees, and compared their performance to select the most suitable model for deployment.
- Performed data scraping from Visual Crossing and merged datasets based on relevant weather parameters.

**Data Science Intern | Softtrine Solutions Pvt. Ltd.**

**Feb 2024 - July 2024**

A data solutions company specializing in data analysis & visualizations

- Developed interactive and dynamic dashboards using Power BI to visualize key performance metrics.
- Assisted in the creation and implementation of machine learning models to improve prediction accuracy.
- Gained hands-on experience with tools and technologies such as Python, SQL, Machine Learning, and Power BI.

## PROJECTS

**Project Name : Chatbot Based on Text**

- Built a rule-based healthcare chatbot to handle predefined medical FAQs, appointment queries, and health-related guidance. Designed the Q&A flow in Python using structured logic and implemented basic NLP preprocessing with NLTK.

**Project Name : House Price Prediction Using ML**

- Developed a house price prediction model using advanced machine learning algorithms, achieving 90% accuracy. Integrated interactive visualizations to provide user-friendly insights into property valuation.
- Tools: Python, Streamlit, Scikit-learn, Kaggle

## EDUCATION

**Dr.D.Y.Patil ACS College Pimpri, Pune**

Master's in Data Science (M.Sc.)

June 2022- July 2024

Percentage : 92.15%

**New Arts Commerce and Science College , Ahmednagar**

Bachelor's in Statistics (B.Sc.)

June 2019- July 2022

Percentage : 87.38%

## CERTIFICATIONS

- NPTEL Online Certifications of Introduction To R Software
- Coursera : Generative AI For Everyone
