SUMMARY

As a fresher, I am eager to apply my skills and learnings in a challenging work environment to further enhance my abilities. Additionally, I have achieved notable success in academics and have completed certifications

EXPERIENCE

QA Intern

ULIS TECHNOLOGY PVT LTD

June 2024 - September 2024, NAGPUR, MAHARASHTRA

- Developed comprehensive bug reports that resulted in enhanced clarity and faster resolutions times for the QA team.
- Conducted regression testing and wrote detailed test cases which led to improved software quality and reduced the number of post-release defects.
- Collaborated effectively with USA-based clients to ensure their needs were met, fostering better client relationships and increasing satisfaction.

PROJECTS

Restaurant Website (Personal)

- I had made this my personal project by using frontend technologies like HTML,CSS

Handwritten Assignment Plagiarism Checker

May 2024 - June 2024

- As a part of 4-member team, we developed a project in Python to detect plagiarism in assignments. I contributed to creating 2 login pages for students and teachers, each with unique login capabilities. The system utilizes the Tesseract tool to check assignments for errors, providing detailed feedback to students and ensuring academic capability
