EXPERIENCE

Lentra AI , Pune 🏠 | Postman, Jira, API, Swagger, Gitlab

07/2024 - Present

Client :- Central Bank of India, Navi Mumbai

- Application to provide (LMS)Loan Management System to Banking Sectors to manage customer's end to end Digital loan processes.
- Performed regression testing to ensure that new deployments or bug fixes did not negatively impact existing functionality.
- Conducted User Acceptance Testing (UAT) with client's to validate that the systems met user requirements and aligned with the expectations of both internal stakeholders and end-users.
- Responsible for Testing and QA Sign-Off when enhancement and Bug fixes done and going to deploy on UAT.
- Participated to do configurations in new journey's and support issue resolution on existing live journeys.
- Worked with Product owners and managers to ensure that all UAT criteria were met, and I facilitated the final sign-off process to confirm that new journeys were fully validated from a user perspective and ready for launch.
- Managed Change Requests (**CRs**) and coordinated cross-functional teams to ensure timely project delivery and alignment with client needs.
