Summary

Data Analyst with a background in Computer Science and an MBA, along with experience in SQL, Power BI, Excel, and Python. I am proficient in analysing data, building dashboards, and supporting business decisions through actionable insights.

Experience

Cognizant Technology Solutions

Mar 2022–Oct 2022

Programmer Analyst Trainee

- Updated **AS400** user permissions using **SQL** to ensure secure and controlled access to sensitive data.
- Managed security protocols effectively, ensuring consistent and reliable user access to protected systems.
- Optimized and transformed data using **MS Office** tools, improving team workflow and data accessibility.
- Worked with a team of 6 people to improve processes and boost system performance through better coordination.

PricewaterhouseCoopers (PwC)

May 2021–Feb 2022

Cyber Risk and Registration Associate

- Conducted thorough **internal audits** of client user databases, identifying and resolving discrepancies to uphold data security and accuracy, while collaborating closely with 6 cross-functional teams.
- Identified and rectified potential data inconsistencies and security risks, ensuring compliance with organizational standards and maintaining the integrity of client information.
- Worked with 7+ **international clients**, resolving data safety and authenticity issues with tailored risk-mitigation solutions.
- Collaborated across teams to implement risk management strategies, enhancing security protocols and data integrity.

Education

Management Development Institute, Murshidabad (MDI).
