EDUCATION

Chandigarh University

Expected Graduation: May 2025

Bachelor of Engineering in Computer Science (GPA: 7.22 / 10.00)

Chandigarh, India

Relevant Coursework: Python, Database Management using SQL, Foundation in Machine Learning, Probability

PROJECTS

CLASSIFY MUSIC GENRES | Python, Pandas, Numpy, seaborn, Matplotlib, sci-kit learn | [GitHub Link](#)

- Engineered an ML model to classify tracks as Hip-Hop or Rock using Python, achieving **87%** accuracy with **PCA**.
- Implemented Decision Tree and Logistic Regression classifiers, utilising **Sci-Kit Learn** for model training.
- Addressed class imbalance issues by applying data balancing techniques, resulting in an **8.5%** improvement.

STOCK MARKET ALGORITHM | Python, Neural Network, Keras, pandas, Pytorch, LSTM models | [GitHub Link](#)

- Developed an LSTM to predict stock market trends, achieving an MAE of **0.015** and an RMSE of **0.023** on test data.
- Designed a robust data pipeline processing 5 years of historical price data and + financial indicators, **LSTM**.
- Improved prediction accuracy by **27%**, demonstrating a Directional Accuracy of **68%** for 5-day price movement.

PUNJAB RURAL CHILDREN VACCINATION DASHBOARD | Plotly, NumPy, Matplotlib, Excel, Docker, | [GitHub Link](#)

- Built a real-time dashboard in Python to track vaccination across 10+ Punjab districts with 95% accuracy.
 - Enabled 5 data input methods, processing weekly, supporting 4 export formats for rapid decision-making.
 - Mapped 200+ low-coverage zones via AI insights, driving an 18% boost in rural vaccination outreach.
-

VOLUNTEER EXPERIENCE

Homophilic Growth School

March 2022 – May 2022

- Facilitated career counselling sessions with students to make better-informed decisions about their career paths.
 - Conducted outreach workshops for 300+ participants in 3 schools, raising brand visibility by 15%.
-

ACHIEVEMENTS

- Secured All India's [Top 10 Position](#) in **StockGro** National Level Trading Simulation Competition organised by CU.
 - Selected for a Cultural **Anchoring Event** in College, among 2000 Students with an Acceptance rate of **0.5%**.
 - Participated in a Project Competition arranged by CU and secured the **TOP 10** Position out of 100+ Projects.
-

SKILLS

Languages: Python, SQL, HTML, CSS, R(Beginner)

Skills: Data Analytics, Data visualisation, Data Cleaning

Framework/Tools: Excel, Tableau, Jupyter Notebook, Power BI

CERTIFICATIONS

- [Google Data analytics](#)
- [Data visualization with Tableau](#)
- [Python for Data Science, AI. & Development](#)
