

SHARAD JHA

+91 8470934892 | sharad.jha1010@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Portfolio](#)

EDUCATION

Vellore Institute of Technology, Bhopal

Aug 2021 - Ongoing

Bachelor of Technology, Computer Science and Engineering

CGPA: 8.77/10

Relevant Coursework: Object Oriented Programming, Operating Systems, Data Structures and Algorithms, DBMS

TECHNICAL SKILLS

Languages: Python, C++, Dart, JavaScript, SQL

Technologies/Frameworks: Flutter, NodeJS, Firebase, Django, MySQL, PostgreSQL, AWS, NetLogo

Developer Tools: Tableau, Power BI, Excel, Git, Figma, Notion, Google Analytics, Google Tag Manager, Postman, Vercel

PROJECTS

RideRio | Flutter

[\[Link\]](#)

- Developed RideRio, a responsive mobile app connecting users with reliable ride-sharing services, addressing traffic congestion and enhancing commuting efficiency.
- Designed front-end for seamless navigation and user engagement, implemented backend for real-time data synchronization and authentication, and optimized data management for quick retrieval, ensuring reliable service delivery in ride-sharing applications.

Urban Heat - Correlation with Population | Python, NetLogo

[\[Link\]](#)

- Built a NetLogo simulation to analyze the impact of urbanization on temperature using real-world datasets (1995–2024), modeling factors like population growth, land use, pollution, and vegetation.
- Processed and visualized 30 years of geospatial and environmental data (e.g., LST, population density, built-up area) to study Urban Heat Island (UHI) patterns in Delhi.
- Contributed to research paper writing, dataset cleaning, and literature review; presented findings through well-structured technical documentation and academic presentations.

RailRoad | Flutter, AWS, SQL, IoT

- RailRoad is a comprehensive solution addressing railway crossing traffic issues using AI and IoT sensors, notifying users of barrier status and suggesting less congested routes.
- The solution aims to streamline 2 major issues: traffic flow and delays at railway crossings.
- Implemented machine learning for traffic prediction and optimized route management.

POSITIONS & RESPONSIBILITIES

iOS Club, VIT Bhopal University

Bhopal, India

Founder & President

Sept 2022 – Sept 2023

- Led and facilitated initiatives to promote iOS development within the college, communicating the benefits through workshops, seminars, and events, resulting in a 30% increase in student engagement and interest in iOS technologies.
- Delivered and communicated 5 comprehensive hands-on training programs, enhancing the team's design proficiency by focusing on practical skills and real-world application development scenarios..

ACHIEVEMENTS

Problem Solving [\[Link\]](#)

Solved over 250+ coding problems, honing skills in data structures, algorithms, and problem-solving techniques on LeetCode.

Smart India Hackathon

Dec 2023

Teamed up with a group of 5 members to secure a finalist position in the Smart India Hackathon, driving idea articulation and spearheading the development of innovative solutions for complex challenges.

CERTIFICATIONS

AWS Cloud Practitioner, AWS

Jun 2024
