SUMMARY

A highly motivated and detail-oriented B.Tech Computer Science graduate (2025) with a CGPA of 7.96, aiming to contribute as a Business Analyst in a dynamic, fast-paced environment. Skilled in business requirement analysis, KPI definition, client communication, and market research. Proficient in Excel, PowerPoint, and IT tools, with a strong passion for loyalty strategy, SaaS product implementation, and solving real-world business challenges through data-driven insights and structured problem-solving.

SKILLS

- Business Analysis:** Requirement Gathering, KPI Definition, BRD, FSD, Use Cases, Journey Mapping
- Data & BI Tools:** Excel (Advanced), SQL, Power BI, Tableau, Data Cleaning, Visualization
- Tools & Platforms:** JIRA, MS Office Suite, MS Visio, CRM Platform Familiarity, Postman (basic)
- Methodologies:** Agile, Scrum, Waterfall, SaaS Product Lifecycle
- Business Intelligence:** Reporting, Dashboards, Market & Trend Analysis
- Communication:** Stakeholder Management, Client Presentation, Verbal & Written Communication

EXPERIENCE

Business Analyst Intern | Zeel Code Labs | Jan 2025 – Jun 2025

- Conducted structured requirement gathering and documented BRDs and user stories for SaaS product modules aligned with Agile methodology.
- Built KPI dashboards using Excel and Power BI to monitor client engagement and feature adoption, enabling data-driven product improvements.

PROJECTS

Customer Loyalty Strategy Dashboard

- Analyzed customer pain points and behaviors using SQL and Excel, and defined KPIs such as retention rate and repeat purchases.
- Developed an interactive Power BI dashboard to visualize loyalty program performance and present insights to simulated stakeholders.

SaaS-Based Feedback Management System

- Gathered client-style requirements, created BRD, and defined KPIs like NPS and resolution time.
- Conducted UAT using JIRA, tested APIs with Postman, and delivered onboarding/training documentation.
