WORK EXPERIENCE

Sreeman solutions | Junior Power Apps Developer

Dec 2023 – Nov 2024

- Worked in Power Apps and Power Automate Team.
- I have gained hands-on experience with Power Apps through an internship, where I was responsible for designing, developing, and deploying custom business applications. During this time, I worked on various projects that involved creating user-friendly interfaces, integrating with multiple data sources, and automating workflows using Power Automate.
- My experience includes collaborating with cross-functional teams to understand business requirements, developing apps that improve operational efficiency, and ensuring seamless user experiences.
- **Learning's and Tech Stack:** Power Apps, Power Platform, Power Automate, SharePoint Online, My SQL, JavaScript, HTML, CSS – skilled in creating custom apps, automating working, and integrating data for improved efficiency.
- Login Page: Allows users to securely access their accounts.
- Sign Up Page: Facilitates new user registrations.
- Forgot Password Page: Provides a way for users to recover their accounts.
- OTP Validation Page: Ensures additional security through one-time password verification.
- Reset Password Page: Enables users to securely reset their passwords.

PROJECTS

Project:

Travel Request and Approval System

Role: Junior Developer

- Developed a Power Apps Application to develop an app for employees to submit travel requests.
- Assisted in developing applications using Microsoft Power Platform.
- Collaborated with cross-functional teams to gather requirements and deliver solutions.
- Automated multi-level approval workflows using Power Automate, reducing manual tracking and delays.
- Implemented role-based access and dynamic form behavior using Power Fx.
- Created responsive, user-friendly interfaces to enhance adoption across departments.
- Collaborated with stakeholders to gather requirements and translate business needs into app features.
- Ensured secure data handling and compliance with organizational governance policies.
- Participated in testing, debugging, and deploying low-code solutions.

CERTIFICATIONS

- Certified in PL-900 Power Platform Fundamentals.
- Certified in Business Analysis Fundamentals by Udemy.
- Certified in SQL by Udemy.
- Certified in Microsoft Excel by Udemy.
