Profile

Results-driven Java Full Stack Developer with practical experience in Web Technologies, Core Java, and SQL. Adept at building responsive and high-performance web applications with a solid understanding of OOP principles, exception handling, and front-end frameworks. Quick to learn new technologies and a strong team player eager to contribute to organizational success.

Education

Kalaburagi **B.TECH**
Sharanabasava University Kalaburagi
(80%)

Skills

core java	HTML	SpringMVC
adavance java	CSS	Spring IOC
JDBC	JavaScript	SpringBoot
HIbernate	MongoDb	MS Word
SQL	React.js	MS Excell

Projects

06/2025 – 07/2025 **Employee Management System**
Developed an Employee Management System using Java Spring Boot for the backend and MySQL for the database, enabling efficient management of employee records with features like add, update, delete, and search. Designed REST APIs and connected them with a user-friendly frontend built using React.js. The system streamlined HR operations and improved data handling efficiency.

05/2025 **E-Commerce Application**
An **E-commerce application** is a web-based platform that allows users to browse, search, and purchase products or services online. This type of project is ideal for learning full-stack development, as it combines frontend design, backend logic, and database management. The application typically includes two main user roles: **customers** and **administrators**.

Certificates

Java Full stack Developer
JSpider Rajajinagar Bengaluru
