

EDUCATION

Ramnarain Ruia College Master of Computer Science; CGPA: 8.59	Mumbai, India July 2023 - June 2025
RD National College Bachelor of Computer Science; CGPA: 9.75	Mumbai, India June 2020 - June 2023

SKILLS SUMMARY

- **Languages:** C/C++, Python, Java, SQL(PL/SQL), Javascript, HTML, CSS
- **Machine Learning:** NLP, Feature Engineering, Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn, CRF, Gliner, Hyperparameter Tuning, OpenCV, ARIMA, Q-Learning, Prompt Engineering
- **Deep Learning:** Tensorflow, PyTorch, Keras, CNN, RNN, Transformers, T5, BERT, Generative AI, Fine-Tuning, Hugging Face, LLM
- **Frameworks:** LangChain, LangGraph, Rasa, FastAPI, MCP, Flask
- **Tools:** Power BI, Tableau, Excel, Git, Docker, Google Colab
- **Other Skills:** Problem-Solving, Research and Summarization, Technical Writing, Leadership and Team Collaboration

WORK EXPERIENCE

AI ENGINEER INTERN CATAPULT TECHNOLOGIES ◦ Developed a chatbot for automated customer messaging. ◦ Improved intent recognition accuracy to 98% by fine tuning BERT model. ◦ Extracted key entities with 95% precision for conversational AI workflows, ◦ Utilized frameworks and libraries such as Rasa, LangChain, LangGraph, and Conditional Random Fields (CRF).	February 25 – August 25
TECHNICAL CONTENT WRITER GEEKSFORGEEKS ◦ Created articles across a wide range of subject and target audiences adjusting content style and tone to match. ◦ Wrote and enhanced 140+ technical articles, improving readability and SEO performance.	January 22 – October 22

PROJECTS

Resume Analyzer Pro ◦ An AI-powered tool that analyzes resumes in under 30 seconds using NLP, ML, and ATS metrics. ◦ It scores resumes across 5+ dimensions, extracts skills, detects weak language, and generates 10 interview questions per field. ◦ Achieved over 90% accuracy in keyword extraction.	May 2025 - July 2025
OTT Customer Churn Prediction ◦ Built a Python-based machine learning model to predict user churn, achieving 93% accuracy with a Random Forest Classifier ◦ Collected data via surveys, capturing demographics, satisfaction, and usage patterns. ◦ Developed a Streamlit app using Python for users to receive churn predictions and insights on factors like content satisfaction and value for money.	June 2024 - October 2024
Cricket Score Prediction ◦ Built a Python-based machine learning model to predict the final score of a T20 International cricket inning, achieving 99% accuracy. ◦ Designed an interactive UI using the Streamlit library, allowing users to input match conditions and view score predictions.	July 2022 - October 2022

ACHIEVEMENTS

Leetcode 100 Days Badge ◦ Solved DSA and SQL problems on Leetcode for more than 100 days in a year. ◦ Have solved more than 500 problems on Leetcode.	November 2024
Syntechxist 2023 Winner ◦ Secured 1st place in Syntechxist a technical event held by RD National College. ◦ Consisted 4 rounds having questions on DSA, C++, Python, and Data Science.	March 2023
Geeks Premier League ◦ Secured 14th position in Geeks Premier League a technical content writing contest held by GeeksforGeeks ◦ It consisted of articles on various technical topics such as DSA, Python, Machine Learning.	May 2022
Hackerrank 5 star coder ◦ Secured 5 stars in C++ on Hackerrank	July 2021
