Summary

Motivated Full-Stack Developer with strong programming skills in **Java, JavaScript, MySQL**, and Redis. Secured **2nd rank during MCA**, reflecting academic excellence and dedication. Completed a hands-on Java Full Stack Internship, gaining practical experience in Spring Boot, Hibernate, Angular, TypeScript.

Skills

- **Languages:** Java, C++, JavaScript, HTML5/CSS3, SQL, Redis.
- **Frameworks and Tools:** JSP, JDBC, Spring Boot, Hibernate, GitHub, VS Code, Jira
- **Development Process:** OOP, SDLC
- **Soft Skills:** Adaptability, Creativity, Verbal Communication, Consistent Learner, problem solving.

Projects

- **MySQL and Redis connections using JDBC** : Conducted a performance benchmarking project using Java with MySQL and Redis through JDBC and **Jedis, inserting and retrieving 1000 student records**. The project enhanced my understanding of **database**.
- **College Services using JSP and Web Services** : A microservices-based web app that helps students find private engineering colleges based on, Future upgrades **include Google Maps and voice navigation** for real-time guidance and campus insights.
- **Crunchy Bites Website Using JSP** : Implemented **backend systems with JDBC** for seamless order management and inventory tracking. Analysed user feedback to continually improve the platform's performance and enhance user experience.
- **Municipality Grievance Guard using PHP** : **Municipal authorities can review and address complaints via an admin panel**. MySQL securely stores data, while a user-friendly HTML/CSS interface, email search filters, and a statistical dashboard enhance grievance management.

Education

- **Master of Computer Application (MCA)** 📅 2023 – 2025 | **CGPA: 9.44** | SVERI's College of Engineering
- **Bachelor of Computer Science(ECS)** 📅 2020 – 2023 | **CGPA: 8.32** | KBPM Pandharpur

Achievement

- **Secured 2nd rank in MCA**, demonstrating strong academic performance and commitment to continuous learning and growth.
- **Won 1st Prize at Dexter Innofest** (Solapur University) for presenting “The Rise of Remote Work.”
- I was honored to be recognized as one of the **Top 3 Best Performing Trainees** during the internship.

Java Full Stack Developer – Intern | 📅 Feb–May 2025 | Internship-Project-Based

- I build full-stack web apps using Java, Spring Boot (MVC), Hibernate, JSP, MySQL, Redis, JDBC, and Angular with HTML/CSS, JavaScript, and TypeScript.
- Worked with tools like GitHub, Jira and Jedis in Agile Environment, focusing on scalable code, clean architecture, and efficient data transactions across Redis & MySQL.
