EDUCATION

Indian Institute of Technology Kanpur

Master of Science in Statistics

June 2024

Kanpur, UP

Banaras Hindu University

Bachelor of Science in Statistics

Sept 2021

Varanasi, UP

Experience

Innodata

Oct 2024 – Present

Senior Associate

Noida, UP

- Analyzed and managed large datasets containing information on data annotators to ensure accuracy, consistency, and completeness across multiple data sources.
- Collaborated with cross-functional teams to track data annotation progress, identify discrepancies, and maintain high-quality standards throughout the data pipeline.
- Developed and maintained Excel-based dashboards and reports to monitor annotator performance, project throughput, and error rates.
- Implemented quality control processes and data validation checks to identify mislabeled entries and improve annotation reliability.
- Created SQL queries and Excel automation tools to streamline the processing and review of annotated data, reducing manual effort and turnaround time.
- Conducted exploratory data analysis (EDA) to uncover trends in annotator behavior, error patterns, and annotation consistency for stakeholder reporting.

PROJECTS

Healthy Lifestyle Prediction using ML techniques | Python, ML

July 2023

- Handled missing value using **SimpleImputer**, encoded categorical using **Label Encoder**, normalized numerical column using **MinMaxScaler**.
- Build models like **Logistic Regression**, **Decision Tree**, and **Random Forest**.
- Conducted **hyperparameter tuning** with **K-Fold Cross Validation** and evaluated models using accuracy metrics such as **confusion matrix**, **precision**, **recall** and **F1 score**.

E-commerce Discounted Price Prediction using ML techniques | Python, ML

July 2022

- Executed **EDA** and addressed **NULL** and **duplicate values**, leveraging underlying feature distribution.
- Trained and compared multiple **machine learning models**, achieving the highest accuracy.
- Enhanced model performance by 25%** through **hyperparameter tuning** using **GridSearchCV**, resulting in **15% more accurate predictions** and a **10% reduction in computational time**.

Color Variation Analysis of Paintings of Some Famous Painter | RStudio

Nov 2022

- Collected data on paintings from different websites through **web scrapping** using R software.
- Identified and **removed possible biases** in the dataset which might affect the inferences.
- Used different **statistical tools** and measures to analyse and differentiate the colour distribution of paintings.

SKILLS

Languages: Python, R, SQL

Analysis & Visualization Tools: Power BI, Advance Excel, PowerPoint, MS Word

Soft Skills: Communication, Collaboration, Decision-Making

LEADERSHIP & TEAMWORK

Orentation Team Member(OTM) | Counselling Service IITK

2023-24

- Organized and implemented New Student Orientation programs for students, ensuring smooth onboarding and enhancing the student experience.

Student Guide(SG) | Counselling Service IITK

2024-25

- Resolving issues related to campus services, academics, and housing, enhancing overall student satisfaction and retention.

RELEVANT COURSEWORK

- | | | | |
|----------------------------|-------------------------|---------------------|----------------------|
| • Sampling Theory | • Multivariate Analysis | • Linear Regression | • Probability Theory |
| • Data Science Lab - 1,2,3 | • Statistical Computing | • Inference - 1,2 | • Econometrics |

EXTRA CURRICULAR ACTIVITIES

- Certificated by **MAHARASHI KANAD SEWA YATRA**, services to villagers of remote areas of Dima - Hasso District of Assam by conducting various social awareness programs.
