Profile (Data Analyst)

Summary: Experienced Data Analyst with 4+ years experience skilled in SQL, Excel, Python for data analysis, reporting and automation. Proven track record in sales analytics, data cleaning and delivering actionable insights. Passionate about solving business problems through data and continuously learning new tools and techniques.

Achievements:

- Mentored and handled a team where I have trained juniors and moved to the process •
Awarded as Best Employee of Year (Twice)

- ❑ **Programming Languages:** Python (NumPy, Pandas , Seaborn, Matplotlib etc.),
Machine learning (Logistic Regression and classification)
- ❑ **Databases:** SQL(MySQL)
- ❑ **BI Tools:** Power BI
- ❑ **Platforms and Misc.:** Anaconda, Jupyter Notebook, VS code
- ❑ **Other Skills:** Having the knowledge of data analysis lifecycle
- ❑ **Possess the quality of a good story teller**
- ❑ Team player with effective communication skills and proven abilities in resolving complex issues.

EXPERIENCE:-

NMD InfoTech

Functional Responsibilities: Data Analyst (November-2023 to Present)

Project: -Business Intelligence Dashboard for Client Operations

- ❑ Designed and implemented an interactive Power BI dashboard for a retail client to monitor sales inventory, and customer engagement KPIs.
- ❑ Integrated and transformed data from SQL Server and Excel to ensure real-time visibility into business performance
- ❑ Reduced client decision-making time by 40% by delivering actionable insights through dynamic visualizations.

Caterpillar

Functional Responsibilities: Data Analyst (June-2023 to November-2023)

Project: - Predictive Maintenance and Optimization for Caterpillar Heavy Equipment Fleet.

- ❑ Collaborated with cross-functional teams to gather data requirements and design data solutions.
- ❑ Collected and analyzed sensor data from excavators, loaders, and tractors to predict maintenance needs
- ❑ Developed efficient data processing and data quality.
- ❑ Created interactive and insightful visualizations using seaborn and matplotlib to aid in data analysis.

- Extracted key features such as average engine temperature, vibration spikes, and abnormal fuel consumption.
- Enabled the company to schedule timely maintenance, reducing equipment downtime and unexpected breakdowns.

NielsenIQ

Functional Responsibilities: Data Analyst (Nov-2021 to May-2023)

Project: -I worked on a project for a Fast-Moving Consumer Goods (FMCG) client to analyze their sales performance and provide insights to improve their market share.

- Conducted data cleaning, data validation, and data quality checks to ensure accuracy of the data.
- Analyzed point-of-sale data to identify trends and patterns in sales, market share, and consumer behavior Leveraged technology to automate daily operational activities.
- Developed and presented customized reports and dashboards to the client to track performance and highlight areas of improvement
- Collaborated with cross-functional teams including sales, marketing, and finance to develop strategies to improve sales and market share.
- Identified opportunities for product innovation and expansion based on consumer trends and market insights.
- Lead and mentor a team.

Aimleap

Functional Responsibilities: Data Analyst (Jan-2020 to July-2020)

Project: Real Estate Contact and Email ID Extraction using Excel, and UI Path

Project Description: The project involves extracting the contact and email IDs of real estate companies in the USA from Google and specific real estate websites using Excel and UI Path. The project will help in building a comprehensive database of real estate companies in the USA for further analysis and marketing purposes.

- Scrape data from Google and real estate websites using Uipath and from multiple resources.
- Clean and preprocess the extracted data to obtain the relevant information, such as the company name, contact person, phone number and email ID.
- Store the extracted data in Excel sheets for easy analysis and management.
- Use UI Path to automate the scraping process and extract data at regular intervals.

Academia:

Bachelor in computer science (2018) from RTM Nagpur University Higher Secondary Certificate 12th (2015) Pune Board

Certificate

- Diploma in DATA SCIENCE and BIG DATA ANALYTICS □
- Diploma in Python.
- Diploma in SQL
- Graduated from MINOC's premier automation Expert (RACE at Nielseniq)
