PROFILE

Dedicated and innovative Software Engineer with expertise in diverse programming environments, specializing in Java full-stack development. Proven ability to tackle scalability challenges and contribute to high-impact, forward-thinking projects. Eager to continually push the boundaries of my potential while earning the trust and confidence of leadership through consistent performance and initiative.

EDUCATION

B.Tech - Computer Science Engineering

G. PULLAIAH COLLEGE OF ENGINEERING AND TECHNOLOGY

CGPA: 8.5

2020 – 2024

Kurnool, India

Board of Intermediate Education

Sri Chaitanya Junior College

CGPA: 8.1

2018 – 2020

Kurnool, India

Secondary School of Education

G.S.N.R High School

CGPA: 9.5

2018

Kurnool, India

SKILLS

Java

- Understanding Skills on Java Data types, Variables, Operators, Control Statements, Loops, Methods.
- Good Knowledge on Arrays, Strings, Object-Oriented Programming Concepts, Collections Framework, Generics, Exception Handling, Multithreading, Interfaces and Abstract, Boxing and unBoxing, File Handling

JavaScript

- Understanding Skills on JavaScript Fundamentals Variables, Data types, Operators, Control Statements, Loops, Functions.
- Good Knowledge on Arrays and Object Oriented Programming.
- Familiar on DOM Manipulation, Events and Event Handling.
- Good Knowledge on Asynchronous JavaScript, Browser APIs

.NET Core

ASP.NET Core

- Middleware and request Pipeline, Routing, Controllers and Actions, Dependency Injection, Filters.

Web API Development

- Creating Restful APIs, API routing, Swagger, Authentication and Authorization.

Entity Framework

- Code First Approach, Migrations, DbContext and DbSet.

SQL

- Excellent Knowledge on Data types, Constraints, Operators.
- Good in Sub-Query and types, co-related sub-query, Pseudo-Columns.
- Familiar in Joins, Functions, Views, Statements of Sql.

C#

- Understanding Skills on C# Data types, Variables, Operators, Control Statements, Loops, Methods.
- Good Knowledge on Arrays, Strings, Object-Oriented Programming Concepts, Collections and Generics, Exception Handling, Interfaces and Abstract

Software Development Process

- Understanding the software Development Process On Requirement Gathering and Analysis, Design, Implementation, Testing, Deployment

CERTIFICATES

- Front end Web design and development workshop- Airbaclabs
- Front - End Technologies - EPAM
- Java Full Stack -JSpiders

SOFT SKILLS

- Willingness to Learn
- Good Communication skills
- Team work and Active Listening
- Problem Solving Skills

PROFESSIONAL EXPERIENCE

Analyst

12/2024 – 05/2025

Project Title : On-Demand Car Wash Application

- Developed a web-based application that allows users to book a car cleaning services at their preferred location.
- Implemented real-time scheduling, secure payment integration, and user review features.
- Designed and developed a user-friendly front end using Angular.
- Build backend services with ASP.NET Core and handled database operations using SQL Server.
- Enabled communication between customers and professional users through microservices- based architecture

PERSONAL INFORMATION

Date of Birth : 18/05/2001
Nationality : Indian
Hobbies : Listening Songs, and cooking .
Languages Known : English, Telugu

DECLARATION

I hereby declare that the details above are correct and true to the best of my knowledge.
