Business Analyst with hands-on experience in business analytics, SQL-based insights, and dashboard reporting. Proficient in SQL, Power BI, Excel, and Python for data analysis and reporting. Skilled at analyzing data trends, building dashboards, and interpreting business needs into data-driven solutions. Strong analytical mindset and a passion for providing actionable insights to drive business performance in fintech environments.

AREA OF EXPERTISE

Python	Excel	Database Management (MySQL,Postgre)
Business Analysis	Power BI	Data Visualization

PROFESSIONAL EXPERIENCE

Geospatial Development Intern, YO4GIS Solutions Mar 2025 - Present

- Collaborated with cross-functional teams to develop geospatial dashboards and tools using **SQL Server** and **Leaflet.js**.
- Supported data integration and validation processes in a distributed environment.
- Improved spatial data workflows and backend efficiency by contributing to internal automation tools.

Data Analyst Trainee, Career Advisory and Augmentation School (CAAS), KIIT Jan 2024 - Mar2024

- Analyzed structured datasets using **SQL** and **Excel** to uncover operational inefficiencies and performance gaps.
- Designed interactive reports and visualizations using **Power BI** to support business decision-making.
- Participated in cross-departmental projects simulating real-world business problem-solving scenarios.

EDUCATION

CDAC's Post Graduate Diploma in Advanced Computing Feb 2024 - Aug 2024

- Specializing in cutting-edge computing technologies.
- Acquired practical skills in software development, testing and automation

B.Tech in Electronics and Computer Science Engineering Aug 2019 - Aug 2023

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar

- Developed a strong foundation in electronics, computing technologies and project management, with practical experience in design and implementation.

PROJECTS

- Dashboards :**
 - Credit Insights – Power BI + SQL(Postgre):** Created a financial overview dashboard for credit usage and region-wise performance by combining SQL data with Power BI reports.
 - YouTube Stats View – Power BI:** Built a dynamic dashboard inspired by YouTube’s interface to track top channels, video views, and subscribers using interactive filters and DAX-driven insights.
- Database:**
 - InstaDB – MySQL:** Designed a database mimicking Instagram to analyze user activity, popular content, and hashtag trends using complex queries
 - Sales Pulse – MySQL:** Developed an e-commerce database to study top products, customer spending, and sales trends with SQL views and aggregations.

ADDITIONAL INFORMATION

- Languages:** English, Hindi.
- Certifications/Badges:** Software Engineering Virtual Program – Goldman Sachs (2023), CISCO's Data Analyst (2023), CDAC-PGDAC (2024)
- Awards/Activities:** CodeKaze Finalist by Coding Ninjas (2023).
