CAREER SUMMARY

I have a proven ability to analyze large datasets, debug SQL queries, and transform data into actionable insights that drive business decisions. I am proficient in creating compelling, interactive dashboards using Power BI to enhance data accessibility and understanding for stakeholders. With strong expertise in Excel, SQL, and data visualization tools, I efficiently manage data manipulation and analysis tasks. Additionally, I have experience in market research, requirement gathering, and conducting both qualitative and quantitative analysis to support strategic initiatives.

EXPERTISE

Data Collection | Data Visualization | SDLC | Insight Generation | Dashboards | KPIs | Business Intelligence | Problem solving | Data analysis | Reporting | Decision Support | Agile | Optimization | Attention to Detail | Data cleaning | Data Processing | Dashboards | Collaboration | Data management | Business Acumen | Communication | Attention to detail.

TECHNICAL SKILLS

Analytical Tools: Advanced MS Excel, Power BI, Google Sheets. **Languages:** Basic Python, MySQL.

Technologies/Frameworks: GitHub, Jira, ETL, MS Office 365

PROFESSIONAL EXPERIENCE

DATA ANALYST INTERN | Main flow Services and Technologies Pvt Ltd

June 2024 – December 2024

Supported business data optimization and reporting processes, ensuring data integrity and actionable insights to enhance performance.

- Identified inconsistencies in large datasets and optimised SQL queries, achieving 100% accuracy in data extraction and reducing query runtime.
- Streamlined data cleaning and normalization processes, enhancing data integrity and improving retrieval speed for analysis by 30%.
- Analyzed customer churn trends using excel and power bi, delivering insights that led to a 10% improvement in customer retention through targeted actions.

VIRTUAL DATA ANALYST INTERN | KPMG (Forage)

March 2023 – March 2024

Completed a remote internship simulation focused on real-world data analysis tasks and business reporting.

- Assessed data quality to identify inconsistencies, improving dataset reliability and accuracy for business insights.
- Analyzed key business performance metrics, providing actionable recommendations to support data-driven decision-making.
- Designed visual reports and presentations that clearly communicated insights to stakeholders, enhancing understanding of data trends.
- Applied Excel, SQL, and data visualization tools to streamline reporting processes and optimize data analysis workflows.

CERTIFICATIONS		
• Essential Data analytics (CISCO CCNA) Link		January 2024
• Data analytics consulting (KPMG-FORAGE) Link		April 2024
• SQL Intermediate (Hacker Rank) Link		July 2024

EDUCATION		
BACHELOR OF TECHNOLOGY Bharath University, Chennai		2019 – 2023
Major - <i>Computer Science</i> CGPA- 8.3		

PROJECTS		
Customer Churn Analysis		
Objective:		
Analyzed customer churn patterns to help the business improve retention and reduce revenue loss.		
Key Responsibilities & Achievements:		
- Collected and queried customer data using SQL to extract relevant metrics related to demographics, usage, subscription details, and churn status. - Performed data cleaning, transformation, and trend analysis using Excel, including pivot tables, lookup functions, and advanced formulas. - Built interactive dashboards in Power BI to visualize churn rate, high-risk customer segments, and retention KPIs. - Identified key churn drivers such as contract type, tenure, and monthly charges, enabling stakeholders to take preventive actions. - Presented insights and recommendations to improve customer loyalty and reduce churn by focusing on high-risk cohorts.		
Tools/Skills: SQL, Excel (Pivot Tables, VLOOKUP, Data Cleaning), Power BI, Data Visualization, Customer Retention Analysis		

HR Analytics		
Objective:		
Provided insights into employee attrition, satisfaction, and performance to support data-driven HR decisions.		
Key Responsibilities & Achievements:		
- Cleaned, organized, and analyzed employee datasets using Excel, including pivot tables, IF formulas, VLOOKUP, and conditional formatting. - Identified key factors influencing attrition such as overtime, job satisfaction, department, and years at company. - Built interactive dashboards in Power BI to visualize attrition trends across departments, job levels, and performance ratings. - Performed trend analysis and correlation studies to support recommendations on employee retention and engagement strategies. - Created summary reports and presented findings to HR stakeholders for strategic workforce planning.		
Tools/Skills: Excel (Pivot Tables, Formulas, Data Cleaning), Power BI, Data Visualization.
