PROFILE SUMMARY

- Customer-centric professional with nearly 3 years of experience in delivering data-driven Business Intelligence Solutions and Process Automation across Telecommunications and Enterprise platforms.
- Worked as Business Analyst at Tata Communications Transformation Services, contributing to service quality improvement and process optimization.
- Utilized Power BI, Tableau, Excel, and automation tools to conduct business analysis and support strategic decision-making.
- Designed and implemented interactive dashboards and detailed reports, enabling data-driven insights across business functions.
- Analyzed complex datasets to identify trends and provide actionable insights, resulting in improved operational outcomes.
- Increased Productivity by automating routine tasks through Power Automate and SharePoint integrations, significantly reducing manual intervention and processing time.

WORK EXPERIENCE

Tata Communications Transformation Services, Chennai, India

Business Analyst | Jan 2022 – Jan 2025

- Currently designing and maintaining interactive dashboards and analytical reports using Power BI, Tableau, and MS Excel, empowering stakeholders with real-time, data-driven insights for strategic decision-making.
- Analyzing complex data sets to uncover operational trends, patterns, and improvement opportunities, driving enhanced process efficiency and business intelligence.
- Leading process automation initiatives through Power Automate and SharePoint, significantly reducing manual workloads and increasing team productivity.
- Collaborating with cross-functional teams and business stakeholders to ensure timely and aligned delivery of key projects, supporting organizational goals.
- Developing and delivering periodic audit-compliant reports for management reviews, as well as internal and external audits, ensuring transparency and regulatory adherence.
- Partnered with internal and external development and QA teams to define Acceptance Criteria, contributing to robust usability testing and enhanced solution quality.
- Successfully implemented a structured training program for onboarding new team members, reducing ramp-up time and elevating overall team effectiveness.
- Facilitated regular stakeholder feedback sessions to continuously optimize processes and improve service delivery, resulting in boost in stakeholder satisfaction.

PROJECTS

Let's Track | Tata Communications | Jan'24 – Mar'24

- Designed and implemented an automated workflow using Power Automate to identify employees on notice period and send real-time reminders via Adaptive Cards on Microsoft Teams.
- Centralized data storage and tracking using SharePoint and Excel, improving compliance and manual oversight.

Recognition and Reward (RNR) Platform | Tata Communications | Aug'23 – Dec'24

- Developed a digital recognition system to streamline employee nominations and approval workflows.
- Enhanced visibility of employee achievements through automated notifications and dashboards using Power Automate, SharePoint, and Adaptive Cards.

Cloudlet-Based Medical Data Sharing | Nov'20 – Jun'21

- Engineered a secure data-sharing framework for cloud-based healthcare systems using .NET and SQL.
- Integrated privacy and intrusion prevention modules to safeguard patient information, aligning with industry data protection standards.
