PROFESSIONAL SUMMERY

- AS a Cloud And DevOps Engineer I Designed and deployed scalable AWS cloud infrastructures using Terraform and Docker, optimizing reliability and performance. Automated provisioning and deployments, reducing setup time by 40% and reducing operational costs by 15%. Implemented secure, efficient IaC and DevOps pipelines, adhering to best practices in cloud security and automation. Hands-on experience with core AWS services (EC2, S3, VPC, IAM, Lambda, etc.) and strong Linux/Windows administration skills. Experienced in leveraging AI tools like Amazon Q and Jira Smart Assist to enhance Agile and Scrum workflows

EXPERIENCE

Grass Solution PVT LTD, India

08/2024–01/2025

Intern

AWS Resources, Terraform, Linux, Servers, Cloud Security Services

Roles and Responsibility:

- Developed and automated AWS cloud infrastructure using Terraform, reducing manual provisioning efforts by 40% and significantly improving deployment speed and consistency.
- Designed highly scalable AWS architectures, provisioning EC2 instances, IAM roles, S3 storage, and RDS databases for optimized performance.
- Setup User permission, roles and policies through IAM users
- Setup VPC Peering with public and private networks
- Optimized AWS cost structures by analyzing usage patterns and implementing resource tagging, auto-stop scripts, and right-sizing strategies—resulting in a 15% reduction in unnecessary cloud spend.
- Engineered high-availability cloud environments by configuring AWS Auto Scaling groups, Elastic Load Balancers (ELB), and multi-AZ deployments—achieving 99% uptime and improved system resilience.
- Participated in sprint reviews, backlog discussions, and iterative deployment cycles, aligning cloud infrastructure goals with project milestones.
- Facilitated the Agile mindset adoption in 4+ project teams, increasing productivity by 15%.

Foxserv Solutions LLP, India

06/2023–02/2024

Consultant

Trainer, Problem solving, MySQL

Roles and Responsibility:

- Worked as a freelance consultant
- Developed and implemented a comprehensive training program for team members focused on collaborative problem-solving techniques, leading to a significant increase in project success rates from 70% to 90%.
- Guided teams in adopting AI-assisted workflows, enhancing decision-making, task clarity, and collaboration across distributed teams.
- Collaborated with cross-functional teams in an Agile environment to deliver AWS infrastructure solutions, improving deployment efficiency by 20%

New Rani Park, India

05/2019-12/2022

BDM (Self-Employed)

Problem solveing ,Digital marketing, strategic planning

Roles and Responsibility:

- As a Business Development Manager in the restaurant industry, I honed problem-solving skills by driving operational efficiency and collaborating with cross-functional teams across marketing, operations, and finance. Led digital and traditional marketing campaigns, leveraged emerging technologies, and applied data-driven strategies to boost customer engagement and support business growth.

Shree Services, India
Software Engineer
Roles and Responsibility:

08/2009-10/2010
.NET, SQL Server,

- Built and enforced a robust application for cable TV operators to streamline operations, improve customer management, and enhance service delivery.
- Designed and tuned the database architecture to support high-performance data storage and retrieval for cable TV applications, ensuring scalability and data integrity.

PROJECTS

Forwarding Logs from EC2 Instances to CloudWatch , [Grass Solution PVT LTD]

Centralizing logs in CloudWatch improves observability, enhances operational efficiency, and enables log-based optimization, reducing costs through proactive incident detection and resource rightsizing.

Hosting a Static Website on Amazon S3 with a Custom Domain, [Grass Solution PVT LTD]

Hosted a static website on Amazon S3 with a custom domain and CloudFront, enabling serverless delivery and reducing hosting costs increase it's efficiency by 86%.

EC2 Auto-Stop/Terminate using AWS Lambda and Tags [Grass Solution PVT LTD]

Automated EC2 cost control by using AWS Lambda and tags to stop/terminate idle instances, reducing unnecessary compute expenses.

Personal Project:

Career-Prompter-Streamlit.App (via Copalite AI/ML tools, streamlit ,VS code ,python)

EDUCATION

Bachelor Of Engineering (Computer Science) (North Maharashtra University) 2009 CGPA: 7.29

Diploma in Information Technology, Government Polytechnic, Nasik 2006 CGPA: 7.15

CERTIFICATION

Certified AWS Solutions Architect Associate	04/2025
AWS APAC Solutions Architecture Job Simulation	Forage - 05/2025
Tata Cybersecurity Analyst Job Simulation	Forage – 03/2025

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, S3, VPC, IAM, CloudWatch, CloudTrail, Lambda, RDS, Route 53, Amazon Q, Amazon Bedrock, Partyrock), Azure

DevOps and Automation: Terraform, Docker

Networking : VPC, Subnets, Route Tables, NAT Gateway, Load Balancing, VPN

Servers : Ngnix, Apache2

Miscellaneous: Git, Linux (Ubuntu, Amazon Linux, Red hat linux), Knowledge of JIRA, ZOHO

COMMUNITY INVOLVEMENT

AWS User Group Volunteer, Pune

- Led AWS technical workshops and mentorship programs to educate professionals in cloud technologies.

Sahaja Yoga Meditation, Volunteer

- Led guided meditation sessions and wellness workshops to promote mindfulness and inner peace. Supported spiritual growth and mental well-being within diverse community groups.

Attended Microsoft Office AI Tools Workshops
