

SWATI AMBADE

+91-9285500526 | swatiambade12@gmail.com | [linkedin.com/in/swatiambade](https://www.linkedin.com/in/swatiambade)

Education

Indian Institute of Technology Kharagpur
Dual Degree (B.Tech - M.Tech) in Mining Engineering

Dec. 2020 – May 2025
CGPA - 7.11/10

Experience

Basic Financial Services Pvt. Ltd.

May 2024 - July 2024

Business Strategy Intern

- Planned strategies to boost business profit by **15%**, leveraging data analysis on **1500+** data to generate business insights
- Examined the year-on-year revenue from clients and fund houses, to significantly increase of **10%** in business analysis
- Collaborated with development team to ensure creation of website design in **Figma** for enhancing user engagement by **12%**
- Conducted **SWOT** analysis to identify area of improvement within organization, aiding in prioritization of strategies

American University of Beirut, Lebanon

May 2024 - July 2024

Research Intern

- Designed and implemented an AI/ML model using **350+** patient records to identify cognitive impairment problems
- Conducted **EDA, Data Visualization**, identifying patterns and correlations, including feature selection using **RFE**
- Trained **3+** models - Logistic Regression, Random Forest, Decision Tree, enhanced accuracy by hyperparameter tuning
- Improved model performance with **96%** accuracy, applying boosting techniques like **ADABOOST** and **XGBOOST**

Swirl

Dec 2023 - Feb 2024

Data Science Intern

- Built a computer vision application - object detection model using AWS Rekognition to detect **4+** objects within images
- Executed image preprocessing tasks including image resizing, contrast adjustment, and image vectorization using **PIL**
- Leveraged pretrained model - **AWS Rekognition** achieving object detection with confidence scores exceeding **0.9**
- Implemented post-processing techniques such as bounding box creation and labeling with **ImageDraw** and **ImageFont**

Skitre.ai

May 2023 - July 2023

Artificial Intelligence and Machine Learning Intern

- Engineered Generative AI-based question-answering chatbot model using the **Retrieval-Augmented Generation (RAG)**
- Preprocessed dataset of **200+** records including tokenization, lemmatization, and document segmentation using **Langchain**
- Utilized OpenAI **GPT-3.5** LLM as a generative model for generating accurate and context-aware response to user queries
- Employed **OpenAI Embeddings** and **Pinecone** to store text-converted vectors and retrieve using **cosine similarity**

Projects

Textual Data Cleaning and Processing | IIM Kozhikode

*Examined large and multiple datasets of political leader speeches of Lok Sabha speakers using **Python** and **MS Excel***

- Managed and cleaned the textual data from over 28000+ political leader speeches datasets, using **Excel** methods
- Merged and consolidated **30+** CSV files into a single comprehensive dataset using pandas library from Python
- Applied FuzzyWuzzy algorithm to precisely merge information from various datasets based on common columns

POSITION OF RESPONSIBILITY

Kshitij, IIT Kharagpur

May 2022 – April 2023

Sponsorship Head

Kharagpur, West Bengal

- Led a team of **100+** members to organize the 20th edition of Kshitij overseeing the sponsorship, events and workshops
- Forged association worth **80M** as a sponsorship amount from corporate giants with increment of **150%** year-over-year
- Conducted **35** events and **12** workshops in collaboration with Microsoft, Google, MongoDB, engaging **1000+** participants
- Achieved a footfall of **10,000+** participants in various events, reflecting **20%** increase compared to last year's offline fest

Kshitij, IIT Kharagpur

May 2022 – April 2023

Core Organizing Team Member

Kharagpur, West Bengal

- Managed responsibilities including Publicity, Corporate and Alumni relation, ensuring successful execution of **19th** edition
- Led **200+** Campus Ambassadors across various colleges, conducting prelims round and publicizing for more participation
- Organized **6** high-impact exhibitions during and prior to the fest, showcasing prominent entities like **ISRO** and **DRDO**

SKILLS AND EXPERTISE

- Programming Languages/Libraries:** Python | C++ | SQL | NumPy | Pandas | Matplotlib | Scikit-learn | Tensorflow
- Tools/Softwares:** Figma | Microsoft Office 365 - Excel, Sharepoint | Power BI/Tableau | Jupyter Notebook | VS Code
- Relevant Course:** Probability and Statistics | Linear Algebra | Programming and Data Structures

AWARDS AND ACHIEVEMENTS

- Received a **\$100** grant for research project from American University of Beirut under the mentorship of Prof Karim Kabalan
- Selected among the top **30** out of **1800+** students in the National Cultural Association - Vocal Music at IIT Kharagpur
