PROFILE

A highly motivated professional with a strong work ethic and the desire to make a positive impact in any professional environment. I bring a diverse range of skills and knowledge that have been developed over the years through my formal education and professional experience. Seeking a position that allows me to apply my strong analytical and problem-solving skills, along with my passion for continuous learning, to make a positive impact and contribute to the overall goals of the organization

EDUCATION

Bachelor of Technology	Adikavi Nannaya University	90 percentile	2020-24
Board of Intermediate	Narayana Junior College	GPA 9.8	2020
SSC	SKVT High School	GPA 10.0	2018

SKILLS

Privacy Fundamentals	Cyber Security Fundamentals	MS Excel
Python and C basics	Technical Troubleshooting	Teamwork
Problem solving	Critical Thinking	Adaptability

PROFESSIONAL QUALIFICATIONS

- Certified in CyberSecurity (CC) from ISC2
- PrivacyOps certification from Securiti.AI
- AI Security & Governance certification from Securiti.AI
- Python certification from IBM
- C certification from IBM
- Artificial intelligence certification from IBM
- AutoCAD certification from Internshala
- Cyber Security Associate certification from Reliance group
- Data privacy fundamentals by Northeastern university certification from Coursera
- Cyber security fundamentals from Infosectrain
- GDPR Certification from Alison

ACHIEVEMENTS AND CAREER HIGHLIGHTS

- Prathibha Puraskar from State Government of Andhra Pradesh in 2018 for Best student of the year
- Best Student Award from Advocate Council in 2020 for Top rank in district

WORK EXPERIENCE AND INTERNSHIPS

Process Associate (Apprentice) – Genpact (June 24 – Aug 24)

As a process associate (apprentice), I was responsible for fixing up meetings for troubleshooting of issues such as system optimization, security configurations, PII and Finance related queries, providing support for data-collection as part of end user identification and account recovery and escalation of unresolved issues/ queries to higher teams as part of escalation matrix.

Project Trainee Management Internship in RINL Visakhapatnam Steel Plant (April 24 – May 24)

As a project trainee at RINL, I had an opportunity to understand and learn about the safety mechanisms, working of civil engineering departments, buildings repairs and maintenance (cracks and special repairs), estimation of sheds, corrosion control methods and industrial painting methods used in a heavy industry plant. This provided me with valuable insights into the latest technology and processes that are being used in the Iron and Steel Sector. The hands-on experience and the opportunity to work closely with knowledgeable professionals have significantly enriched my understanding of the industry.

PROJECTS

Experimental study on light weight concrete by partial replacement of CS with Coconut shells and Egg Albumen as foaming agent :

This study investigates the use of coconut shell as partial replacement for coarse aggregate in light weight concrete, incorporating egg albumen as a foaming agent. The findings aim to explore the potential benefits and applications of this innovative material in construction. Concrete is a vital construction material, but the high cost and limited availability of quality coarse aggregate like sub-arkose sandstone can be mitigated by using coconut shell waste as a replacement. It enhances the mechanical properties of lightweight and no-fines concrete, providing both cost savings and environmental benefits.

PERSONAL PROFILE

Date of Birth: 10 May 2002 | Linguistic Ability: English, Hindi, Telugu and Urdu
