PROFESSIONAL SUMMARY

Flutter Developer and Full Stack Engineer with 1+ years of experience building cross-platform mobile apps, REST APIs, and cloud-integrated systems using Flutter, Dart, Firebase, NestJS, and MongoDB. Experienced in CI/CD, clean architecture, and delivering products used by 50,000+ users.

SKILLS

Dart, JavaScript, Java, SQL, Flutter, ReactJS, NodeJS, NestJS, ExpressJS, Firebase, Riverpod, PostgreSQL, MongoDB, Firebase Firestore, Git, VSCode, IntelliJ, Android Studio, Tailwind CSS, Strapi CMS

EXPERIENCE

Software Developer

July 2024 – Present

FRESH BUS

Hyderabad, India

- Led development of an internal operations app that reduced task handling time by 3 hours per week and improving mobile app performance by 20% by introducing paginations.
- Implemented multi-environment configuration with Strapi CMS, Firebase Firestore, and Flutter, enabling content updates without code redeployment, leading to 50+ less builds per month.
- Built 15+ secure REST APIs using NestJS/PostgreSQL, improving backend performance by 60% and resolving multiple bugs. Developed and deployed two cross-platform mobile apps using Flutter and Dart, available on Google Play Store and Apple App Store.
- Worked closely with designers to deliver responsive UI; enhanced UX with Firebase Analytics and FCM and Implemented Riverpod-based state management and clean architecture for scalability.

Full Stack MERN Developer Intern

June 2023 – Dec 2023

SYLLOGISTIC AI

Hyderabad, India

- Converted 30+ design mockups into fully responsive web pages using JavaScript, ReactJS, and Tailwind CSS, reducing UI development time by 20% and Resolved 25+ UI bugs, leading to a 30% improvement in page rendering speed and consistent layout across 3 screen sizes.
- Developed and integrated 20+ RESTful API endpoints using NodeJS and ExpressJS, enabling seamless frontend-backend communication.
- Implemented JWT-based user authentication and middleware, securing 100% of protected user routes.

PERSONAL PROJECTS

CRICKO | *Flutter, Dart, NestJS, PostgreSQL, Prisma*

- * Building a cross-platform cricket scoring app with 10+ scoring features, advanced match analytics, and real-time updates across devices.
- * Designed a scalable backend architecture using NestJS and Prisma, handling up to 1,000+ concurrent users in local load tests.
- * Implemented OTP-based user authentication and push notifications via Firebase Cloud Messaging for 100% real-time user alerts and Enabled image uploads to AWS S3 and deployed backend on AWS Lambda using Serverless Framework; connected to AWS RDS for managing 10K+ rows of match and player data.

DEVHUB | *ReactJS, NodeJS, ExpressJS, Tailwind CSS*

GitHub

- * Built a full-stack social media platform supporting 5+ core features including post creation, editing, deletion, and commenting.
- * Implemented secure JWT-based authentication with 3-layer validation across 100% of user routes, ensuring data privacy.
- * Implemented profile upload and display modules with image storage and live data sync; tested UI behavior across 3 screen sizes.

EDUCATION

Lords Institute of Engineering and Technology

Bachelor of Engineering in Computer Science

June 2020 – June 2024

Hyderabad, India
