About

Highly motivated and analytical Computer Science graduate with a strong foundation in SQL, data analysis, and product operations. Eager to leverage skills in business intelligence and strategic problem-solving to drive data-driven decisions. Seeking a Business Analyst role to optimize processes, improve product performance, and contribute to business growth through insightful data interpretation and stakeholder collaboration.

Education

Indian Institute of Information Technology, Nagpur (Dec 2020 – Aug 2024)

- Bachelor of Technology (B.Tech) in Computer Science and Engineering
- CGPA: 7.8 / 10

The Future Kid's School, Rajahmundry (June 2018 – June 2020)

- Senior Secondary Education – ICSE & ISC
- Percentage: 90.25%

Experience

Nbyula, Product Operations & Analytics Associate

Bengaluru, India
Aug 2024 – Dec 2024

- Collaborated with senior Product Managers to enhance product KPIs and drive feature adoption.
- Developed interactive dashboards using SQL and Power BI to analyze the lead application pipeline and track key metrics.
- Presented actionable insights to cross-functional teams, leading to optimization of user journeys.

Nbyula, Product Operations Intern

Bengaluru, India
Feb 2024 – Aug 2024

- Streamlined user onboarding processes by implementing automation tools, improving efficiency.
- Ensured data hygiene and quality within internal systems through meticulous data management.
- Supported critical business operations by leveraging Excel for data manipulation and internal product tools for process enhancement.

Projects

Zomato Data Analytics Project

[Github link](#)

- Conducted a comprehensive SQL analytics case study on a simulated food delivery dataset to derive business insights.
- Demonstrated end-to-end data analysis capabilities, from relational schema design to advanced querying for strategic recommendations.
- Tools Used: MySQL

Business Dashboard for Nbyula (Live Tool)

- Designed and developed a real-time lead tracking dashboard utilizing SQL and Power BI.
- Empowered internal teams with visual data insights on conversion rates, optimiz-

ing outreach strategies and improving lead management.

- Tools Used: Excel, Power BI, SQL

Epileptic Seizure Classifier

- Developed a real-time medical application with secure access and a predictive scoring model to assist healthcare professionals in accurate diagnosis.
- Tools Used: Python, HTML, CSS, Postgresql

Patent & Publication

Co-Author for a book chapter - “Generative AI for Text-to-Image” – IGI Global March 2024
[Chapter Link](#)

Inventor of a seizure classification application, with the patent published Title of June 2024
Invention: Computer-Based System for Diagnosing Epileptic Seizure using Patient Data and Patient’s Experience Data

Achievements

- Secured 1st position in a B-plan competition, "Stranger Things," at IIM Calcutta’s Genesis.
- Achieved 2nd position in "Design-a-thon" at IIIT Nagpur’s Tantrafiesta.

Technical Skills

Analytical Tools: SQL, Power BI, Excel (Pivot Tables, VLOOKUP, Charts), Data Visualization

Programming Tools: Python, Figma, JIRA

Soft Skills: Strategic Thinking, Problem-solving, Cross-functional Team Collaboration, Communication, Stakeholder Management
