EDUCATION			
Board	Tenure	Educational institution	CGPA/Percentage
B. Tech (CSE)	Jun 2020 -Ongoing	Vellore Institute of Technology, Bhopal	8.5/10
Class XII	May 2020	Bhagirathi junior college	80%

ACADEMIC PROJECTS	
Machine Learning	➤ FlutterLumpSense (Jan 2023 – May 2023) - Empowered Severity Evaluation for Cattle Lumpy Skin Disease with precision of 86%. - Incorporated a comprehensive dataset of over 2000 images. Thereby Improved survival rates and maximized survival of individuals at initial stages. (10%-40% affected). - Implemented K-fold cross validation, neural networks and Flutter for deployment with firebase. - Led and managed a team of 4 members as a Machine Learning Engineer. ➤ Optimization agriculture production (April 2021 – April2021) - Improves crop yield and productivity through data analysis. - Provides farmers with information for informed decisions on sowing time, irrigation, fertilization, and pest control. - Uses popular Python libraries: pandas, NumPy, scikit-learn, matplotlib, and seaborn.
Machine learning / Web Development	➤ Vehicle Number Plate Detection (OCT22-NOV22) - Handles Difficult Conditions: Recognizes license plates with noise, low-light, angles, and non-standard fonts. - Advanced Preprocessing: Utilizes techniques like morphological transformation, smoothing, thresholding, and edge detection to enhance image quality. - Accurate Character Extraction: Employs segmentation and contour analysis with filtering based on size and location for precise character identification. - Optical Character Recognition (OCR): Applies OCR to recognize the extracted characters from the license plate

INTERNSHIP EXPERIENCE	
SmartInternz (May23 – July 23)	- Enhanced Data Quality: Ensured data integrity for analysis through comprehensive cleaning and preprocessing. - Collaborative Analytics: Partnered with teams to solve business challenges with data-driven recommendations. (Highlights teamwork and analytical approach) - Data Analysis Expertise: Proficient in Python, R, Power BI, and Tableau for data cleaning, preprocessing, and analysis. (Keywords relevant to data analysis tools)
Microsoft (july23 – sep23)	- Contributed to all stages of the software development lifecycle: design, coding, testing, and debugging to ensure the delivery of high-quality software products. - Utilized specific programming languages and technologies such as Java, C#, .NET, Azure, and JavaScript relevant to the internship. - Resolved critical API-related issues, significantly enhancing the software system's stability and performance.

EXTRA-CURRICULARS AND ACHIEVEMENTS	
Achievements	- Spearheaded Microsoft Engage Intern Mentee 2022 program - Selected for Football team at inter-state level. 5th Rank from college in Problem of the Day (Coding Question) organize by Geeksforgeeks. - Solved 800+ Question on Leetcode and rank is 22000 - Advanced to Top 30in smart India Hackathon (2022) - Won an international hackathon – Hacking Heist in Top Product Category by beating 200+ teams (2022) - Global Contributor in Hacktoberfest.
Responsibilities	- Group Leader for Hackathons. - Captain for Football Team.
Extracurricular	- First Place, Inter School 200m running (Nov 2017) - Selected as student coordinator (June 18)
Hobbies	- Playing Cricket, Football. Represented school in district-level Football leagues (Jun 2018) - Swimming, Reading Novel
Language	English, Hindi, Marathi
