WORK EXPERIENCE

Aug 2024 - Present Business Operations Associate
Analytica 360

- Managed end-to-end outbound logistics operations, guaranteeing on-time dispatch and delivery of goods to domestic and international customers.
- Updated and maintained customer-specific inventory records, ensuring real-time accuracy through systematic tracking and reconciliation.
- Collaborated with warehouse teams to produce and validate Goods Dispatch Notes (GDNs).
- Prepared, verified, and processed export documentation in compliance with customs requirements, ensuring seamless international shipments.

Projects

3 Months Building with bracing and without bracing

- Researched and analyzed various types of bracing techniques as a part of the final year college project
- Investigated the structural response of buildings with different bracing systems and those without bracing during seismic events
