Career Goals

Aspiring Business Analyst with a strong foundation in AI, data analytics, and software development. Eager to bridge the gap between technology and business by delivering data-driven insights and innovative solutions.

Education

Fr. Conceicao Rodrigues College of Engineering, Bandra	Present
Artificial Intelligence and Data Science Engineering CGPA: 8.99	
Sathaye College, Vile Parle	2022
HSC (Class XII)- Percentage: 69.68%	
Parle Tilak Vidyalaya High School, Vile Parle	2020
SSC (Class X), Percentage: 92.00%	

Skills

Python | Java | MySQL | Power BI | Excel | Jira

Projects

IPL Data Visualizer – Interactive Analytics Dashboard

Performed **exploratory data analysis (EDA)** on IPL cricket data using **Python (Pandas, Seaborn, Plotly)**; developed an **interactive Streamlit dashboard** enabling fans to analyze their favorite players' batting/bowling performance, trends, and yearly comparisons. Included robust data cleaning and used **Data Frame Manager** modules to structure insights for better usability.

PDF PowerHub – Process Automation & Document Management

Developed **business process automation solution** using Streamlit for PDF workflow optimization. Analyzed document processing requirements and implemented **multi-functional platform** (convert, split, merge, compress). **Reduced manual processing time by 80%** through streamlined workflows and intuitive interface design.

AI-Powered Financial Advisor Platform

Analyzed financial planning processes and identified accessibility gaps across user demographics. Designed **multi-channel** solutions with a web dashboard, **WhatsApp/Telegram bots** for rural accessibility, and AI-powered document processing. Delivered improved financial literacy and planning capabilities through **automated** updates and personalized recommendations.

Internships & Simulations

BCG GenAI Consulting Virtual Internship – Forage | May 2025

- Simulated building of an AI-powered **financial insights chatbot**.
- Parsed and interpreted financial data from 10-K & 10-Q reports using **Python and Pandas**.
- Applied rule-based systems to deliver actionable insights through chatbot interaction.

Deloitte Australia – Data Analytics & Forensics Simulation – Forage | May 2025

- Built an **interactive Tableau dashboard** to visualize and interpret forensic data.
- Used **Excel for data classification** and scenario-based business analysis.
- Gained exposure to fraud detection techniques and data-driven decision-making

Academic and Extracurricular Achievements

- Winner – Atharva College of Engineering IEEE Techithon, 2024
- Winner – S.J.Somaiya Aura Hackathon, 2024
- Winner – Genai thon 25, S.I.W.S
- Second Runner in Webathon organized by ACM at M.H. Saboo Siddik College of Engineering.
