Pune, Maharashtra

OBJECTIVE

Recent Electronics and Telecommunication Engineering graduate with Honours in Data Science . I began my career at Repute Engineers Pvt Ltd as a Graduate Engineer Trainee, where I gained experience in IT and Networking , IP configuration, troubleshooting , documentation, and coordination with client. Later I joined Ketsol Pvt Ltd, , Looking to leverage my problem-solving abilities, Technical skills and client coordination experience to contribute effectively to the growth and success of the organization.

PROFESSIONAL EXPERIENCE

• REPUTEINDIA PVT LTD

22 July 2024- December 2024

Designation -Graduate Engineer Trainee

Pune, India

Developed Experience in networking and troubleshoot: Gained hands-on experience with Networking, IP configuration, and data visualization tools to support operational analysis and reporting .

Provided on-site support for diagnosing and resolving hardware, software, and network-related issues to minimize downtime in production operations.

◦

Ketsol PVT LTD

10 Feb- 30 June 2025

Designation -IT and OT specialist

Pune, India

- * **Business Requirement document and Functional Requirement document (BRD/FRD) documentation:** Created detailed **BRD and FRD documentation** for the development of a production planning and scheduling module software, aligning requirements with business needs for the client .
- * Collaborated with stakeholders and management teams to gather functional and process data for production planning and scheduling.
- * Acted as a bridge between the **development team** and **operations**, ensuring timely communication of requirements, feature updates, and issue resolutions during the software development lifecycle **SDLC**.
- * Developed dashboards and gained hands-on experience in **MS Excel, Python, database management, SQL, JIRA, visualization tools power BI** .

EDUCATION

- * **Dy Patil college of Engineering,Pune (Affiliated by Savitribai Phule Pune University)** June 2020 - June 2024
BE-Electronics and Telecommunication with Honours in Data science
· GPA: 7.60/10
Pune, India
- * **Krishak College, Dheodha,Nawada,Bihar** March 2017-March 2019
Bihar school Examination Board-BSEB
· Percentage-80
Patna, India
- * **Bihar School Examination Board** March 2016- March 2017
Secondary Education
· Percentage-76
Patna, India

PROJECTS

- * **Project 01: [Soldier Tracking and Health Monitoring System]** FEB-2024
Tools: [Raspberry Pi, GPS Module, Sensor,Pulse rate sensor, Temperature sensor, Python] 
· **The project aims to revolutionize soldier safety by providing a real-time health and location monitoring system, ensuring quick medical assistance in emergencies. It seeks to leverage IoT and advanced sensor technology to enhance operational efficiency in defense scenarios. By integrating reliable communication and tracking, the system aspires to minimize risks faced by soldiers in critical environments. Ultimately, the goal is to contribute to the development of smarter and safer defense technologies.**
· **Incorporated GSM Module** for transmitting critical data to a central monitoring system in real-time
· **LM35** temperature sensor and its role in transmitting data via the **GSM module**.

- Implemented sensors to measure vital signs such as heart rate, body temperature, and GPS for location tracking.
Enhanced situational awareness and rapid response capabilities for **military operations**.

* **Project 02: [Stock Market Performance Analysis using Python]** March 2023
[Tools: [Python, Pandas, NumPy ,GitHub] [🔗]

- Utilized Python's robust data analysis packages like Pandas, NumPy, and Plotly to analyze historical stock data, extract insights on patterns, correlations, and performance indicators, enabling informed investment decisions. Developed a Python-based tool to analyze and visualize stock market trends using historical data. Integrated Data from APIs to fetch real-time stock information for dynamic analysis. Performed Risk and Return Analysis to evaluate portfolio performance and investment strategies.

Skills

- * **Programming Languages:** Html, css, Javascript, Python, SQL, Database, oops
- * **Specialized Area:** Requirement gathering, Dashboard development using Power BI, Financial markets, SDLC, and about Fintech.
- * **Other Tools & Technologies:** Python, Database, sql, Visualization tools, InfluxDB, VS code, MS-Office, JIRA
- * **Skills:** Problem solving skills, Critical Thinking, Communication skills, Management,
