SUMMARY

Aspiring Data Analyst skilled in SQL, Python (Pandas, NumPy, Matplotlib). Power BI and Advanced Excel. Experienced in data visualization Cleaning. strong problem-solving and analytical skills, eager to contribute in a data-driven role.

SKILLS

- **Data Analysis:** Excel, SQL, Strong proficiency, Power BI, Python (Pandas, NumPy, Matplotlib)
 - **Data Visualization:** Power BI, Excel Dashboards
 - **Database Management:** SQL, MySQL, SQL Server, Database Design, Query Optimization
 - **Programming & Scripting:** Python (Data Cleaning, Data Manipulation), Pandas, NumPy Matplotlib
 - **Automation & ETL:** Power Query
 - **Soft Skills:** Problem Solving, Critical Thinking, Attention to Detail, Communication
-

PROJECTS

- **E-Learning Management System**
 - Developed 2+ Power BI dashboards to track student progress, course completion, and key performance indicators (KPIs)
 - Optimized 30+ SQL queries for faster data retrieval and used Excel for data cleaning and validation.
 - Conducted student retention analysis using Power BI and Excel (for data cleaning), and solved data-related problems using SQL.
 - **Mini Online Retail System**
 - Managed retail sales and inventory data using Excel with advanced formulas and pivot tables to analyze 10,000+ records.
 - Developed and optimized 20+ SQL queries to extract sales trends, customer behavior, and inventory status.
 - Cleaned, structured, and transformed raw datasets using Excel formulas, Power Query, and SQL functions.
 - **Power BI Dashboards**
 - Developed 10+ Power BI dashboards to show important data and help make better decisions.
-

CERTIFICATIONS

- Data Analytics Certifications – Naresh
