Pune, India | +91- 7020227508 | vidhitbuddy7@gmail.com | www.linkedin.com/in/vidhit-bokadey

I am a **Business Analyst** with expertise in **Data Analytics**, **SAP Business Warehouse (BW)**, and **Business Intelligence (BI)**, with two years of experience at **Cognizant** working on Nike's data management and reporting systems. I recently completed my **MSc in Business Analytics** from **Aston University, UK**, where I specialized in predictive analytics, machine learning, and business intelligence solutions

TOOLS & SKILLS

SAP BW	ETL Development	SQL	Data Visualization	Predictice Analysis
SAP BW 7.5	EDA	Power BI	Data Modelling	Descriptive Analysis
SAP ERP	Matplotlib	Python	Data Preparation	Data Analysis

WORK EXPERIENCE

Business Analyst Intern | Aston Business Clinic

Oct 2024 – Dec 2024

- Conducted market research & data analysis, identifying 5+ strategic growth opportunities and operational improvements.
- Identified business strategic recommendations for Clinic clients using Porter's Five Forces and SWOT analyses, increasing client satisfaction.
- Facilitated cross-functional collaboration, working closely with diverse teams to drive alignment and efficiency, ensuring seamless execution of organisational initiatives, leading to enhanced operational effectiveness and strategic goal achievement.
- Prepared reports & presentations, delivering data-driven recommendations that influenced key business decisions, incorporating Excel, Word and PowerPoint for data visualisation and analytics, improving reporting by 30%.

Programmer Analyst | Cognizant Technologies Solution, Pune

Mar 2023 – Dec 2023

- Developed and optimized SAP BW 7.5 & SAP HANA data models to support Nike's business operations.
- Built and maintained SAP BW process chains for automated data loading and transformation. Enhanced SAP BW ETL workflows, improving data consistency and load times.
- Designed and developed basic SAP BW data models to support Nike's business analytics needs.
- Automated data validation processes to ensure high-quality data for reporting.

Programmer Analyst Trainee | Cognizant Technologies Solution, Pune

Feb 2022 – Feb 2023

- Assisted in data extraction, transformation, and loading (ETL) from SAP ECC and S/4HANA into SAP BW cubes.
- Configured and tested SAP BW process chains, ensuring data refresh accuracy and reliability.
- Supported data cleansing and preprocessing for business intelligence reports.
