Education

Shri GS Institute of Technology and Science

Bachelor of Technology in Civil Engineering; CGPA – 8.23

2020 – 2024

Indore, India

IIT Madras

Diploma in Data Science(Online); CGPA – 8.70

2020 – 2023

Chennai, India

Carmel Convent Sr. Sec. School

Class 12th; Percentage – 95

2018 – 2019

Neemuch, India

Carmel Convent Sr. Sec. School

Class 10th; CGPA – 10

2016 – 2017

Neemuch, India

Relevant Coursework

- Python
- Linear Algebra
- Statistics
- Machine Learning
- Artificial Intelligence
- DBMS

Technical Skills

Languages: Python, SQL

Libraries/Frameworks: ML algorithms, Pandas, NumPy, Scikit-learn, Flask, Matplotlib, Seaborn

Tools: Git, VS Code, MS Excel, VBA, Google Sheets, Tableau, Power BI, Jupyter Notebook

Soft Skills: Effective oral and written communication, Strong attention to detail, Self-discipline, Leadership.

Experience

Tally Solutions Pvt. Ltd.

September 2024 – Present

Software Engineer Trainee

Bangalore, India

- Completed hands-on training in Python, Jira, Confluence, Git, C++, Visual Studio, Tally Definition Language (TDL) for UI design.
- Gained functional and product knowledge of TallyPrime, including key modules such as voucher management, basic accounting concepts such as debit-credit principles, vouchers involved in transactions, voucher entry process and ledger creation.
- Architected a Resident Welfare Association (RWA) invoice and expense management system with TDL, creating a voucher system and automating expense reports, improving operational efficiency for community management by 80%.
- Enhanced Tally DOC AI's invoice parsing accuracy by 60% through resolving JIRA tickets, debugging C++ modules, and optimizing TDL logic for defect reduction.

Projects

Heart Disease Prediction Model

- Developed a Heart Disease Prediction Model using the Farmingham dataset; performed data analytics and tested algorithms, achieving 86% accuracy, 0.92 AUC, and 0.85 F1 score with SVM (Support Vector Machine).

E-Commerce Shopper's Behavior Understanding

- Analyzed e-commerce customer behavior using a year of session data to predict purchases. Evaluated various machine learning algorithms, identifying Logistic Regression as the best performer with an F1 score of 0.64. Key skills utilized include data cleaning, preprocessing, and model evaluation.

BooktheShow

- Developed a web application called "BooktheShow", a comprehensive Ticket Booking Platform featuring an admin and multiple user roles, using Flask for backend development, SQLite for data storage and management, and Bootstrap for responsive front-end design.
- Built secure admin and user authentication with session management, enabled essential CRUD operations for managing venues and shows.

Certifications

- Diploma in Data Science, IIT Madras.
- Foundation Level in Data Science and Programming, IIT Madras.

Achievements

- Qualified GATE (Data Science and Artificial Intelligence) 2025.
- Gold Medalist for being the best student of Civil Department: SGSITS Indore.
- District Topper in Class 12TH CBSE examinations.
- Secured 1st Position in Dream to Dance : IIT Madras BS degree Online Fest.
