Summary

- Detail-oriented Analyst with hands-on experience in Agile project environments, product coordination, and stakeholder communication.
- Skilled in gathering and analyzing business requirements, developing key documentation (SRS, BRD, FRS, user stories), and supporting end-to-end project delivery.
- Proficient in JIRA, Confluence, and Microsoft Office Suite (including Advanced Excel), with a strong foundation in process mapping, UAT, and wireframing.

Key Skills

- | | | |
|--|---|---------------------------------------|
| • Agile & Scrum Methodologies | • AI Annotation & Optimization | • SRS, BRD, FRS, User Stories |
| • Business Analyst and UAT | • Research & Analytical Skills | • Agile Project Management Tools |
| • Requirement Traceability | • Stakeholder Communication & Collaboration | • Problem Solving & Critical Thinking |
| • Microsoft Office Suite (Excel, PowerPoint, Word) | • Wireframing & Requirement Gathering | • JIRA & Confluence |
| • PostgreSQL, Advance Excel | | |

Education

Sandip Foundation's SITRC, Nashik
B.E in Information Technology

June/2020–May/2024
8.04 CGPA

Professional Experience

Turing LLC

Remote

Research Analyst

Sept/2024–Present

- Developed strategies to optimize AI for complex business challenges. Conducted AI annotation and researched solutions to address business complexities.
- Collaborated with QA, Development, and Product teams to implement data-driven solutions. Leveraged advanced Excel for analysis, reporting, and charts creation.

Cuemaths

Nashik, India

Business Analyst Trainee

Dec/2023–July/2024

- Created and managed user stories, SRS, and BRD documentation to capture business requirements, ensuring alignment with Agile methodology and stakeholder expectations.
- Utilized JIRA for task tracking and sprint planning, optimizing workflows and enhancing cross-functional team collaboration during Agile ceremonies.
- Conducted data analysis and visualization in Excel, and developed process flow diagrams to support business decisions and document current/future system states.

Certificate

- Lean Six Sigma White Belt certified
- Business Analysis by Microsoft and LinkedIn

Projects

1. AI Annotation – SFT, DPO & Rewrites Turing LLC

- Collaborated with cross-functional teams to fine-tune AI models, ensuring optimized performance and business alignment.
- Trained and refined models using techniques like Supervised Fine-Tuning (SFT) and Direct Preference Optimization (DPO).
- Performed data labeling, output validation, and error correction to enhance model accuracy and response quality.

2. E-Learning Platform – Cuemaths

- Collaborated with stakeholders to gather and analyze requirements, contributing to the development of a scalable E-learning platform.
- Created SRS, BRD, and user stories to align business needs with development goals and ensure traceable, structured documentation.
- Utilized JIRA and Confluence for Agile project tracking, documentation, and coordination across design, QA, and development teams.
