PROFILE SUMMARY

Detail-oriented and analytical Business Analyst with internship experience in fintech and edtech sectors. Adept at bridging technical and business teams, performing requirement elicitation, and delivering data-driven insights. Proficient in SQL, Excel, Power BI, and Python with strong skills in documentation (BRD, FRD), user story writing, stakeholder communication, and business process modeling. Experienced in Agile and Scrum methodologies with a track record of improving operational efficiency and supporting product strategy through data insights.

EDUCATION

SMT Indira Gandhi College of Engineering

BE in Computer Science and Engineering (AIML)

S.E.S Polytechnic

Diploma in Computer Technology

Percentage: 81.60

Ghansoli, Navi Mumbai

Oct 2022, June 2025

Solapur, Maharashtra

2019-2022

SKILLS

- **Business Analysis:** Requirement Gathering, BRD & FRD, User Stories, Use Case Diagrams, Wireframing, UAT, Stakeholder Communication, Gap Analysis, Process Modelling, SWOT
- **Data Analytics Tools:** MS Excel (VLOOKUP, Pivot Table, Data Validation), Power BI, Tableau, Google Sheets
- **Languages & Libraries:** Python, SQL, Java, Pandas, NumPy, Matplotlib, Seaborn
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Other Tools:** JIRA, Confluence, Git, GitHub, Jupyter Notebook
- **Concepts:** Data Cleaning, EDA, Dashboarding, Reporting, Data Visualization, Predictive Modelling

PROFESSIONAL EXPERIENCE

Business Analyst Intern

Bluestock Fintech | Mar 2025 – May 2025

- Collaborated with stakeholders to gather and analyze business requirements across financial dashboards.
- Created **BRD and FRD documents** and participated in UAT cycles for new dashboard deployments.
- Conducted **root cause analysis** on reporting lags; improved report accuracy and reduced turnaround time by 40%.
- Used SQL and Excel to extract and visualize KPIs for 50K+ users; delivered insights via Power BI.
- Facilitated sprint planning and retrospectives as part of Agile team; ensured business objectives aligned with technical solutions.

Machine Learning & Data Analytics Intern

Academor | Aug 2023 – Oct 2023

- Developed customer segmentation models using clustering techniques with 90%+ accuracy.
- Supported product managers by delivering insights on learning behaviour from 20K+ user logs.
- Delivered dashboards and summary reports to cross-functional teams using Python and Power BI.

PROJECTS

Interactive Sales Dashboard – Power BI | SQL | Excel

- Created a **12-page dashboard** analyzing performance across **5+ regions** and **1,000+ products**.
- Automated SQL-Excel data sync, reducing manual processing by **75%**.
- Enabled self-service BI for **30+ stakeholders** via drill-downs and KPIs.

Customer Churn Prediction – Python | Scikit-learn

- Processed and analyzed **10,000+ customer records** for churn prediction.
- Achieved **91% model accuracy** using logistic regression with tuned features.
- Suggested retention actions that improved engagement by **15%** in test markets.

IPO Analytics Web App – Django | PostgreSQL

- Designed a scalable backend tracking **100+ IPO listings** with 99.8% uptime.
- Integrated encrypted file downloads and responsive UI for **50,000+ users**.
- Reduced load time by **30%** with optimized SQL queries.

Appointment Analytics System – Android (Kotlin) | Firebase

- Tracked **1,200+ real-time appointments** to optimize scheduling.
- Increased slot utilization by 60% through predictive availability insights.
- Leveraged Firebase analytics to inform new feature development.

CERTIFICATIONS AND ACHIEVEMENTS

- Software Development Engineer Intern | Bluestock Fintech
- Certified Machine Learning Developer
- HackerRank Certification in Software Engineer and Problem Solving
- Certified Full Stack Java Developer | ExcelR
- MTA Python Certification | Microsoft
