Professional Summary

MBA graduate in Business Analytics & Marketing with hands-on experience in data analysis, dashboard creation, and business documentation. Proficient in Power BI, SQL, and Excel with a strong understanding of Agile methodologies. Passionate about leveraging data to drive strategic decisions and optimize business processes. Seeking analytical roles in dynamic environments that promote continuous learning and growth.

Education

Sir M Visvesvaraya Institute of Technology, Bengaluru (VTU)	NOV 2024
MBA – Business Analytics & Marketing	CGPA: 7.93
Govt. College for Women, Chintamani	JUN 2022
Bachelor of Commerce (B.Com)	CGPA: 8.71

Internship Experience

Karnataka Milk Federation (KMF)	Oct 2023 to Nov 2023
Organizational Study Intern	Kolar
- Analyzed the organization's structure, workflow, and team dynamics. - Engaged with employees across departments to understand operational challenges. - Identified key areas for improvement and provided actionable recommendations.	

Projects

Uber Trip Analysis Dashboard	April 2025
- Created an interactive Power BI dashboard to analyze trip data for Uber, covering KPIs such as total bookings, revenue trends, and vehicle type efficiency. - Integrated DAX for time-based analysis, identifying peak hours, payment preferences, and hotspot locations via heatmaps. - Helped simulate fleet optimization strategies and demand forecasting.	
Coffee Shop Sales Analysis Dashboard	May 2025
- Developed an interactive Power BI dashboard to analyze over 149K transactions, tracking key KPIs like total sales, orders, and quantity sold. - Utilized MySQL for advanced querying to uncover trends by day, hour, product category, and store location. - Implemented calendar heatmaps, line charts, and heat grids to highlight sales patterns, top-selling items, and peak business hours for strategic decision-making.	
Green Marketing in Bengaluru’s Food Industry	May 2024
- Created an Android application using Java and Android Studio to calculate ticket prices for trips to museums in NYC. - Processed user inputted information in the back-end of the app to return a subtotal price based on the tickets selected. - Utilized the layout editor to create a UI for the application in order to allow different scenes to interact with each other.	

Technical Skills

Data Tools	-: Power BI, MySQL, Advanced Excel (VLOOKUP, COUNTIF, Pivot Tables), VBA
Database & Querying	-: SQL (Joins, DDL, DML), MySQL
Business Analysis	-: BRD, FRD, Use Cases, Wireframes
Project Management	-: Agile & Scrum, Jira, Microsoft Azure

Core Competencies

- Data Visualization (Power BI, Excel Dashboards)
- SQL Queries (Joins, DDL, DML)
- Business Documentation (BRD, FRD, Use Cases, Wireframes)
- Data Cleaning & Transformation
- Agile & Scrum Framework | Jira | Azure Boards
- KPI Analysis | Report Automation
- Communication & Cross-Functional Collaboratio

Certifications & Courses

-  Microsoft Azure Fundamentals – Udemy
-  Business Analytics using Data Science – Udemy
-  Business Analysis A–Z by Meetul Patel – Udemy
-  Business Analytics – Phillos IT Training Institute
