Summary:

Analyst with hands-on experience in SQL, Python, Power BI, and Excel, proficient in **AI-driven analytics**. Skilled at leveraging **AI** tools for data cleaning, modeling, workflow automation, and dashboarding to accelerate analysis and improve decision-making. Passionate about transforming raw data into actionable, **AI-powered insights** that drive smarter strategies and deliver measurable business impact.

Technical Skills:

AI-Driven Analytics & Tools: End-to-End Data Analysis, Workflow Automation, AI-Powered Dashboards, and Automated Reporting

SQL: Joins, CTEs, Aggregations, Window Functions, Query Optimization

Machine Learning: Basic model building, Clustering, Regression

Python: Pandas, NumPy, Seaborn, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA)

Power BI: ETL, DAX, Power Query Editor, Data Modeling, Report Automation, KPI Dashboards

Tableau: Designing charts, graphs, and interactive visuals

Excel: Pivot Tables, Power Query, Data Validation, Advanced Formulas, Dashboarding

Business Analysis: KPI Tracking, Ad-hoc Reporting, Operational Metrics

Statistics & Analytics: A/B Testing, Descriptive Statistics, Root cause analysis,

Soft Skills: Time Management, Problem Solving, Self Learner, Strong communication,

Stakeholder Reporting, Data Storytelling

Education:

- Master of Business Administration | KL Business School, Guntur | 2022 - 2024
- **Relevant Courses:** Data Analysis, Python Programming, Database Management, Statistics
- **Certifications:** [Accenture – Data Analytics Virtual Experience](#) | [Grow AI – Power BI Certified](#)
[IBM – Data Analysis with Python](#) | [Be10X - AI Tools for Data Analytics & Automation](#)

Experience:

Grow Ai Edtech – Data Analyst(intern)

June 2025 – July 2025

- Tasked with improving learner engagement and course completion rates.
- Analyzed engagement data from **5,000+ learners using Python and SQL** to identify behavioral patterns. Built reports to track session time, engagement levels, and learner performance.
- Conducted **A/B testing** on course content to evaluate the impact of different learning materials.
- Identified retention trends that drove a **12% increase in course completion rates** and improved content effectiveness by **10%** through data-driven recommendations.

Century ply – Logistics Analyst trainee

June 2024 – Jan2025

- **Collected, organized, and validated logistics data** across warehouse, billing, and dispatch operations to ensure accuracy for daily reporting.
- **Performed trend analysis** on shipment delays and route performance to uncover patterns affecting delivery timelines.
- **Identified key bottlenecks** using data insights, enabling **data-driven decisions** that improved operational efficiency and **ensured timely deliveries**.
- **Prepared analytical reports and visual summaries** for management to support strategic planning in supply chain and logistics operations.

Projects:

4-Year Loss Analysis – EIC Insurance ([SQL + Power BI](#))

- Tasked with analyzing historical insurance claim data to identify high-risk areas.
- Cleaned and transformed 4 years of insurance claim data using SQL; designed an interactive Power BI dashboard.
- Highlighted key patterns in year wise and department-wise losses and vehicle segments.
- Identified a **27% spike in high-risk vehicle losses** and **12% YoY profit fluctuations**, enabling strategic claim cost reductions of **15%**.

Loyal Customer Detection ([python](#))

- Cleaned and prepared Telco data (handled missing values, created churn flag) and explored customer behavior (tenure, charges) to uncover key churn factors.
- Built a **Random Forest model** for churn prediction and developed an **interactive Stream lit dashboard** to visualize insights for stakeholders.
- Identified **26% churn rate** and top 3 churn drivers (short tenure, high monthly charges, high total charges), improving early churn detection by **20%** and enabling targeted retention strategies.

Professional Achievements:

- **Passed the SQL Test on Test Dome, ranking in the top 25%**, showcasing strong SQL problem-solving and query optimization skills.
- **Attended AI Tools Workshop:** Certified AI tools expert For AI driven Data analytics From Analyzing Data to Providing smarter insights Through AI
