Professional Summary

Final-year IT student with hands-on experience in product management, web development, and SQL. Skilled in building responsive apps, analyzing data, and driving strategic initiatives. Eager to apply tech and business skills in dynamic, impact-driven teams.

Education

Maharaja Surajmal Institute Of Technology, Delhi, India

Bachelor of Technology in Information Technology, CGPA: 8.915 ()

Dec 2021 – Aug 2025

Experience

Product management Intern – DICT

- Boosted Enrollments: Implemented Free Trial Access and Demo Lessons to let students explore course content before enrolling, which significantly increased sign-ups.
- Built Trust through Social Proof: Added student reviews, ratings, and success stories on course pages to improve credibility and influence decision-making.
- Cross-Team Collaboration: Worked with marketing, tech, and content teams to launch user-focused features and ensure consistent growth in student engagement and enrollment.

Web Development Intern – OCTANET

- Crafted a user-friendly website with modern, responsive design.
- Used HTML, CSS, and JavaScript to develop dynamic web pages.
- Integrated APIs for dynamic product information display.
- Received commendation for on-time delivery and clean implementation.

Projects

Vendor Performance Dashboard | SQL, Python, Power BI

- Cleaned and transformed vendor data using Pandas and SQL queries (joins, filters, aggregations).
- Designed a Power BI dashboard showcasing vendor KPIs and trends.
- Enabled stakeholders to make data-driven decisions through visual insights.

Go Green Website | Node.js, Express.js, MongoDB, Nodemailer

- Created a platform to track and log tree plantation efforts with automated email alerts via Nodemailer.
- Integrated Google Forms and Google Sheets API for real-time data capture and display.
- Promoted environmental awareness through interactive features and user participation.

Job Seeking Application | MERN Stack

- Built a job portal with user authentication, job listing, and applicant tracking features.
- Used React.js for UI, Node.js and Express.js for backend, and MongoDB for storing structured data.
- Manually tested APIs and routes using Postman to ensure error-free functionality.
- Followed clean code principles and modular architecture for maintainability.

SQL 50 LC | MySQL

- Solved 50 critical SQL problems on LeetCode, enhancing problem-solving and query optimization skills.
- Applied advanced SQL techniques such as joins, subqueries, window functions, and aggregates.
- Gained proficiency in handling real-world data scenarios and improving database management.

Licenses & Certifications

- Product Management Program: Agile, roadmap planning, lifecycle, and data-driven decisions.
- Google UX Design Certificate: Wireframes, Figma, user research, high-fidelity prototyping.

Relevant Coursework

- Data Structures & Algorithms
- OOPS
- Software Engineering
- DBMS
- SQL

Technical Skills

- Languages: C++, SQL, HTML, CSS, JavaScript
- Technologies: React.js, Node.js, Express.js, MongoDB
- Tools: Asana, JIRA, Open Project, VS Code, GitHub, Replit, Git, Postman, MS Excel, Pandas

Soft Skills

- Communication – Developed through volunteer work
- Critical Thinking – Applied in organizations and club projects
- Leadership Management – Core member of multiple societies
- Self-Motivated – Passionate, hardworking, and quick learner

Positions of Responsibility

Deputy Head — Chief Advisor – E-Cell MSI

Led strategic planning and execution for major E-Summits like MIST Jalsa, E-Bizz, and E-Quiz (2022–2024).
