Summary

Detail-oriented professional with hands-on experience in software development, data analysis, and project coordination. Proficient in Python, SQL, Power BI, and cloud concepts. Skilled in Agile methodologies, requirement gathering, and stakeholder communication. Capable of delivering scalable solutions, analyzing data, and supporting cross-functional teams across technology, analytics, and business domains.

Education

Savitribai Phule Pune University

Bachelor of Engineering

2020 – 2024

CGPA: 8.43

B.H. Chate College Pune

Class 12th (HSC)

2018 – 2020

Percentage: 82.62%

Jawahar Navodaya Vidyalaya Raigad

Class 10th (CBSE)

2017 – 2018

Percentage: 71.83%

Relevant Coursework

- Data Analysis
- Business Intelligence
- OOP
- SQL for Data Science
- Database Management
- Cloud Computing
- Data Visualization
- Agile Methodologies

Projects

E-commerce Analysis Using SQL and Python EDA | *SQL, Python, Pandas*

[GitHub Repository](#)

- Performed exploratory EDA on an e-commerce dataset using SQL for extraction and Python for statistical analysis.
- Generated actionable insights on customer behavior, product performance, and KPIs to support data-driven decisions.
- Used complex joins, filtering, and subqueries to derive targeted insights via Python-SQL integration.

HR Analytics Dashboard | *Power BI, Tableau, DAX*

[GitHub Repository](#)

- Designed dynamic interactive dashboards to track attrition and satisfaction by department, tenure, and demographics.
- Cleaned and efficiently transformed data to uncover trends and support HR decision-making.
- Applied advanced DAX for calculated metrics and time-based slicing of data.

Uber Ride Analysis | *Python, Pandas, NumPy, Matplotlib, Seaborn*

[GitHub Repository](#)

- Thoroughly explored ride patterns, trip duration, and peak times to highlight key user behavior and usage trends.
- Effectively applied groupby and time-series operations in Python to identify critical city-level surge pricing patterns.
- Used insightful data visualizations and charts to support data-backed recommendations for service improvement.

Technical Skills

Languages & Concepts: Python, SQL, OOP, Data Structures, Algorithms

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Machine Learning

Tools & Platforms: Power BI, Tableau, Jupyter Notebook, VS Code, Google Colab, MySQL, Advanced Excel

Business & Process Skills: EDA, ETL, Data Cleansing, Data Modeling, SDLC, BPMN, UML, BRD, FRD

Project Management: Requirement Gathering, Jira, Project Planning, Stakeholder Communication, Documentation

Certifications

- Linkcode Technologies Certified Data Analyst
- SevenMentor Certified Business Analyst
- Infosys (Springboard) Certified Microsoft Power BI Learner
- Master Azure: Become Cloud Ready – Azurelib Academy
- Emerging Technologies and SAP ABAP on BTP – Code Unnati

Activities

- Completed Machine Learning Basics workshop by VOIS; learned supervised learning and model evaluation.
- Achieved 5-star Gold Badge in Advanced SQL Certification on HackerRank for complex query skills.
- Attended Python with AI workshop by AI for Techies; practiced automation and AI scripting using Python.
